FOLDING BARS ON WHEELS

WHY THE PORTABLE FOLDING BAR?

SEE A RETURN ON YOUR INVESTMENT...FAST

Reduce lines during peak hours, add a point of sale poolside or grab more eyeballs on your next product launch. Rent out advertising space to sponsors and clients, reduce set up times with staff and handle large events while freeing up storage space.

QUICK & EASY SET UP

Our bars set up and tear down easily within minutes, saving you and your staff time.

TRULY PORTABLE

Individually locking, industrial strength casters in steel casings make it easy for you to roll any of our bars from one place to the next.

INCREDIBLY FUNCTIONAL

Ice bins, cutting boards, speed wells, foldable shelving, interchangeable panels and other handy features - all carefully included to make your staff's job easier, so they can focus on the truly important stuff.

SPACE EFFICIENT

All of our portable bars fold quickly and easily, saving you valuable storage space. Each bar includes a polyester cover to protect your bar when not in use.

PROFESSIONAL APPEARANCE

The stylish, semi-permanent appearance of our bars will add a level of professionalism to your events. Each bar has been carefully designed to compliment your decor - instead of taking away from it.

HIGH QUALITY CONSTRUCTION

Each bar is constructed from high grade steel with a durable clear coat or powder coat finish - the same finish commonly used on cars in the auto industry. The interchangeable panels are made out of thick, high quality acrylic. The result is a rock-solid bar that will impress your clients and stand the test of time.

FULL COLOR GRAPHICS

Add eye-popping, full color graphics to any or all of the four panels allowing you to personalize a client's special day, add a company logo or promote a product launch.

LED LIGHTING

Include LED lighting to create a cool, nighttime vibe or to draw attention to your product. Plug directly into the wall or into the 8 hour rechargeable battery (included) and easily change the color and pattern with a touch of a button.

Black Heavy Duty Portable Bar
in Salem Planked Chestnut laminate

FLASH BAR™

MODULAR SYSTEMS

WHAT IS THE FLASH BAR?

The Flash Bar Modular System is a product line of The Portable Bar Company. The Flash Bar goes places wheels can't, such as upstairs or over grass since it can be broken down and carried.

Its customizable design allows you to pick and change the size, shape, look, and accessories to create a unique serving experience.

Its easy set up allows you to change your bar on site per your event's needs. Yet it's durable enough to be used as a substitute for a permanent solution.

PICK YOUR SHAPE

Build custom bar shapes

by mixing and matching 6 different shaped segments

transport the bar by breaking them down into smaller pieces in minutes

* Matching Back Bars are available too

CLICK HERE

To Create your own Flash Bar with our Bar Builder on our website

Takes less than 5 minutes to fill out. It calculates the price, the bar footprint, and generates a rendering in real-time.

CHOOSE THE INTERIOR

Create your own use with the available upgrades:

- Sinks
- Ice Storage
- Speed Rails
- Adjustable Shelving
- Trash Chutes

* Upgrade the Flash Bar with a draft system by adding a Jockey Box

DESIGN THE LOOK

Options vary for indoor and outdoor use

Optional Panel Upgrades for Flash Bar & Flash Bar Back Bar:

- Comes with White ACP Panels (Aluminum Composite)
- LED Lighting (Works with all Panel Types)
- Vinyl Printing (Branding & Logos)
- WilsonArt Laminate (Recommended for Indoor Use) 800 + Finishes
- Textured Vinyl Printing (Wood & Stone Looks for Outdoor Use)

Counter Upgrades:

- Comes with Black Acrylic Counters (Recommended for Indoor Use Only)
- Seaboard Counters (White or Black)
- Stainless Steel Counters
- WilsonArt Laminate (Recommended for Indoor Use) 800 + Finishes

- Double Insolated Stainless Steel Ice Bin
- Lid with Drain holes
- Drain Stopper
- Accessory Shelf (Drop-In Hole is Located in the center for the Circle Segment and the left or right side of the Straight Segment)
- Drop-in Drainboard with Tanks include Drain Tank and Vinyl Tubing

DIMENSIONS

Outside: 19.5" x 17.5" x 13.5" Deep
Inside (Usable Space): 15" x 13" x 12" Deep

BAR ESSENTIALS

TRASH CHUTES

The Flash Bar Trash Chute is designed to work with the Flash Bar Straight Segment and the 90° Corner Segment. The trash chute, constructed of heavy-duty 304 stainless steel, tucks away into the workspace to provide 5.6 gallons of hidden trash storage.

The Flash Bar Trash Chute makes the best use of often unused worktop space of the 90° Corner Segment. It fits into a special drop-in shelf that can be retrofitted into a Straight Segment or 90° Corner Segment. The drop-in style allows the Trash Chute to be installed in under a minute and helps secure a 13 gallon (kitchen size) or larger trash bag.

Use the Trash Chute with the lid to hide messes and smells. Use without the lid for quick, easy access to trash disposal.

TRASH CHUTE FOR STRAIGHT SEGMENT

- 5.6 gallons of hidden trash storage capacity.
- Includes shelving with special cutout for the trash chute to fit Straight segments

DIMENSIONS

21" Wide 8" Tall 8" Deep

TRASH CHUTE FOR 90 CORNER SEGMENT

- 5.6 gallons of hidden trash storage capacity.
- Includes shelving with special cutout for the trash chute to fit 90 Corner segments

DIMENSIONS

21" Wide 8" Tall 8" Deep

BAR ESSENTIALS

GLASS RINSING SYSTEM

This stainless steel portable glass rinsing system for your portable bar can elevate the quality of service provided and contribute to a positive customer experience.

INCLUDES

- Stainless Steel Glass Rinsers that accommodates glasses up to 4" in diameter
- (2) 5 Gallon High-density Polyethylene Tanks
- 1.9GPM Water Pump with Power Adaptor
- System Fittings and Hoses
- Surge Protector

JOCKEY BOX

FEATURES

- Stainless steel construction
- 120' long coils
- (2) 304 stainless steel taps with all of the shanks, coils and faucets
- (2) 5ft Food-grade Thermoplastic vinyl hose beer lines with Stainless Steel Tailpiece and Hex Nut
- Can serve two different beers simultaneously
- Drain Hose
- Drip Tray

DIMENSIONS & WEIGHT

23.25" W x 10.75" H x 22.75" D (With Drip Tray Installed)
Weight: 65 lbs

ADDITIONAL ITEMS FOR FULL SYSTEM

- CO2 Tank
- Regulator
- (2) Coupler
- (2) Airline

CLEANING KIT ITEMS

- Cleaning Kit
- 0.5oz No-Rinse Cleaner
- 32oz Beer Line Cleaner
- Wrench

SODA DISPENSING

SODA GUN MOUNT

- The Flash Bar Soda Gun Mount is designed for Wunder-Bar® and Schroeder America™ style soda guns*
- *Soda gun sold separately
- Fits Straight segment only

DIMENSIONS

4" Wide 8" Tall 5" Deep

SODA GUN SYSTEM

- Fits into a single Flash Bar Straight Segment
- 4-Flavor - Up to two flavors per gun
- 2 Soda Gun Mounts
- Ice bin with integrated Cold Plate
- 10 lb CO2 Tank
- Primary and Secondary Regulators

LIGHTING & SAFETY

WORK SURFACE LIGHTING

- Work area lighting ideal for dark environments
- Can light 1 Straight or Circular Segments
- Attaches to the bar counter, for discreet indirect light

LED EXTERIOR LIGHTING

- 8 Color options: Red, Orange, Yellow, Blue, Cyan, Purple, White, Green
- Waterproof LEDs installed
- Sealed, 8 hour rechargeable battery w/ power supply
- Easy-to-use controller and remote

SALOON DOORS

- 21.5"
- Stainless Steel
- Swinging and Bi-directional
- Optional Custom Panel
- Reversible ACP Panel
- Upgrade existing Flash Bar (Saloon Doors are not NSF certified)
- Removable

SNEEZE GUARD

We've designed this acrylic countertop shield to fit your Flash Bar Straight & Circular Segments. This acrylic countertop shield, also called a sneeze guard, is specifically chosen for and tested on the Flash Bar Straight & Circular Segments. The wide shield covers the width of the segment's workspace and offers an access hole large enough for serving.

LOCKING CABINET DOORS

- Left and Right Locking Doors
- (2) Enclosed Sideframes with (4) Feet
- Bottom ACP Frame with Panel and Cotter Pins
- Top Work Surface and Bottom Shelf
- Counter Pins

SHADE BRACKET

- The bracket can attach to any side frame
- Can hold a standard size umbrella pole of 1.5' diameter

STORAGE & TRANSPORT

FLASH BAR CARRY BAGS

- Made of high quality, water resistant polyester material
- Available for Straight segments, 90° Corner segments and Ice Bins

FLASH BAR COVERS

The covers are also segmented just like the Flash Bar. Every Flash Bar segment has their own custom shaped cover. The covers can be configured to conform to the shape of the bar you have.

BACK BAR COVERS

The Flash Bar Backbar covers are made of high quality, water resistant polyester material that have a modular design to protect your equipment. There are two versions available to coordinate with whatever Backbar setup you may have.

A set of end cap covers will be needed for each set of Flash Backbar end caps per configuration to fully cover the unit

FLASH BAR CASE

The Flash Bar Case is fitted with a guide inside. The guide is cut to precision so parts of your Flash Bar will fit and will not be damaged during transport.

Each case will fit one 90° Corner, 60° Corner or Straight segment.

DIMENSIONS

19" Deep x 39" Wide x 69" Tall
Caster: 4"

TRANSPORT CASES

ROAD CASE

Each Road Case carries approximately two Flash Bar segments, depending on which pieces are packed.

DIMENSIONS

56" Deep x 32" Wide x 36" Tall
Caster: 4"

FLASH BAR BACKBAR CASE

The Flash Bar Backbar Case is an open space case. Perfect size to fit your Flash Bar Backbar to protect during transport and while storing.

Each case will fit one Flash Bar Backbar.

DIMENSIONS

28" Deep x 60" Wide x 45" Tall
Caster: 4"

STORAGE & TRANSPORT

ROLLING BASE FOR FLASH BAR

- For Straight, Circular and 90° segments.
- Only works with basic Stainless Steel Sink Kit & Grey Water Sink.
- Rolling base only works on hard flat surface
- Maximum of four segments can be moved while connected.
- Caster: 3"

* FLASH BAR SEGMENTS SOLD SEPARATELY

EXTRAS

FLASH BAR WORK SHELVES

- Work surface counter reconfiguration
- Additional shelving space
- Available in plain, dual-cutout, and left or right hand cutouts

EXTERIOR OPTIONS

The Flash Bar segment comes with white Aluminum Composite Panels and Black Acrylic Counters. Both the counter and the panels are inserts that attach to the stainless steel frame. The bar looks finished and modern as is, but there are hundreds of exterior upgrade options that fall within the material types below, that one can use to create a unique look.

UPGRADE OPTIONS FOR YOUR FRONT (CUSTOMER FACING PANELS)

HIGH PRESSURE LAMINATE PANELS - Comes in wood grains, planked wood, metallic, stone, and colorful patterns. The laminate is attached to the ACP Panel. See <https://Wilsonart.com/laminate/design-library> for a full list of finish options.

VINYL PRINTING - Wrap the bar in vinyl. Much like a car wrap - we can print most vector artwork including logos, pictures, patterns, and text assuming the design works with the shape of your bar. Vinyl comes in a Matte or Shiny Finish.

LED's - Comes with 8 color options and multiple speed and brightness settings. Controlled with a remote. Powered by a cordless battery or regular 12 Volt charging cord for US outlets

UPGRADE OPTIONS FOR YOUR COUNTERTOP

HIGH-PRESSURE LAMINATE COUNTERS

We can match your panel laminate selection. See <https://Wilsonart.com/laminate/design-library> for a full list of finish options.

SEA BOARD COUNTERS - Available in black or white. This is a marine grade material rated for horizontal install. Good for locations close to the water or environments with high humidity. This is the recommended counter top option if you wish who wish to use the bar outside.

Check out our gallery on page 55 to see some of our best work.

NSF CERTIFIED FLASH BAR

WHAT IS NSF CERTIFICATION?

Millions of people take the safety of their food, water and consumer products for granted on a daily basis. Why? Because of three letters: NSF. NSF certification is your key to making sure that the products you use meet strict standards for public health protection.

Having the Flash Bar NSF certified lets you know we met the strict standards and procedures imposed by NSF. From extensive product testing and material analyses to unannounced plant inspections, every aspect of a product's development is thoroughly evaluated before it can earn an NSF certification.

NSF FLASH BAR SEGMENTS

- Straight Segment
- Circular Segment
- 60° Corner Segment
- 90° Corner Segment
- Reverse 90° Corner Segment
- End Caps

NSF APPROVED ACCESSORIES

- 4 Basin Sink with Faucet & Drains
- Sink with Drainboard
- Drop-In Ice Bin
- Speed Rail
- LED
- Signage
- Laminate
- Flash Bar Cover
- Flash Bar Case
- Road Case

BENEFITS OF A STAINLESS STEEL MODULAR DESIGN

EASY TO TRANSPORT & STORE

Every segment breaks down into smaller pieces for easy transport or storage. The heaviest piece weighs less than 20 pounds. When broken down, each piece lies flat or stacks.

FAST SET UP & TAKE DOWN

Each segment takes 2 minutes to set up or take down. Every piece locks into place with little effort, NO TOOLS REQUIRED ON MOST SEGMENTS.

OPTIONAL ACCESSORIES

There is a wide selection of accessories to pick from. You can add ice bins, sinks, speed rails, LED lighting, wood counters, signage, laminated paneling, and more.

RETROFIT

All the segments and accessories can be mixed -and matched allowing the customer to order additional pieces, replacement parts, and more accessories at a later point.

DURABLE CONSTRUCTION

The Flash Bar's internal structure is 100% stainless steel. It is sturdy enough to be used every day as a substitute for a permanent bar. It's also resilient enough to endure the stress of constant transport.

EASY TO CLEAN

The working surface, customer counter, and accessories are easy to remove. This allows the customer to keep every inch of the bar clean with minimal effort.

WHO IS USING THE FLASH BAR AND HOW?

GALLERY

Substituting a Permanent Structure or Using it as a Mobile Equipment Solution

Benefits for using the Flash Bar as a Substitute for a Permanent Structure

RESTAURANTS BARS HOTELS CASINOS COUNTRY CLUBS BANQUETTE HALLS CONCERT VENUES STADIUMS

The bar's sturdy stainless steel construction makes the Flash Bar durable enough for heavy everyday use, just like a permanent bar.

Investing in a modular bar system as a substitute for a permanent bar allows a venue to add bar space in weeks for a fraction of the cost (compared to a full blown construction project.) Plus there are far less permit restrictions on modular set ups as compared to permanent ones.

Adding bar space to most venues will help increase profit by decreasing the time customers spend waiting in line for service. Serve more customers in less time.

By having the option to store the bar venues can take

advantage of space that's only available certain times of the year, such as an outdoor deck or patio.

Having a bar that breaks down and sets up in minutes gives venues more flexibility in catering to customer's specific requests. Potential customers renting out the space would have the option to move the bar, change the shape, and even change the look of the bar. All of which would be impossible with a permanent bar.

Benefits of using the Flash Bar as a Mobile Equipment Solution.

MOBILE BAR BUSINESSES TRADESHOW EXHIBITORS RENTAL COMPANIES CATERERS BANQUET HALLS PROMOTIONAL TAIL GATING

Inspired by the success of the Portable Bar Company's foldable bar line, the Flash Bar's original purpose was to give mobile hospitality services a competitive edge by making high quality equipment companies can use on the go.

It's designed to be easy to transport . When broken down the heaviest piece is less than 20lbs and each piece either stores flat or stacks.

The Flash Bar's modular system makes looking professional on the go effortless. Set up or take down of one segment less than 2 minutes and requires no tools. Setting up quickly at many different places is one less thing you have to plan for.

The same amount of pieces can be set up in different formations so every set up will look tailor made for each event.

The bar's customizable panels, ability to change shape, and retrofit different accessories or segments, maximizes a company's range in providing ideal services to unique events.

The Flash Bar is purchased in segments and additional segments can be retrofitted. This means replacing pieces and upgrading the bars accessories will always be an easy option.
