- **Keep this instruction manual.**

Note: Two persons required to setup this bar.

Main Frame
QTY: 1

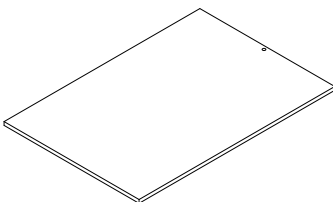

Speed Rail
QTY: 1

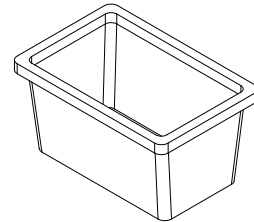

Cover
QTY: 1

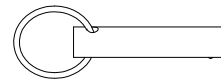

Cutting Board
QTY: 2

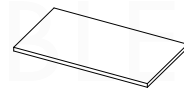

Ice Bin
QTY: 2

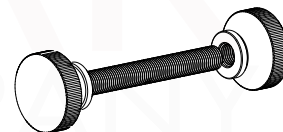

Lock Pin
QTY: 2

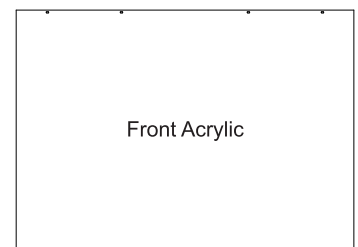

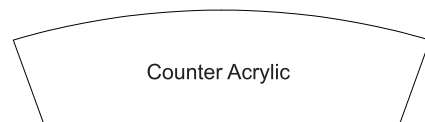

Magnet Squares
QTY: 2

Thumbscrews
QTY: 2

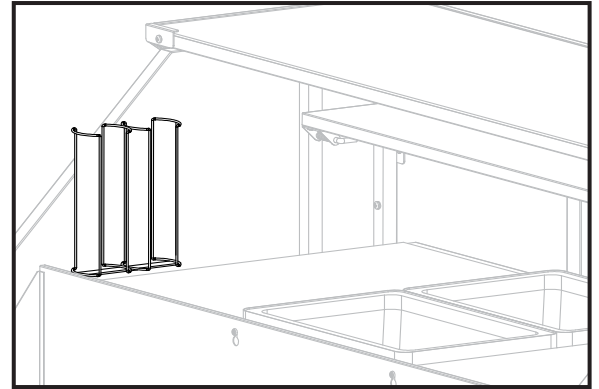

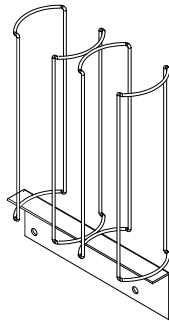

Acrylic Panel
QTY: 4

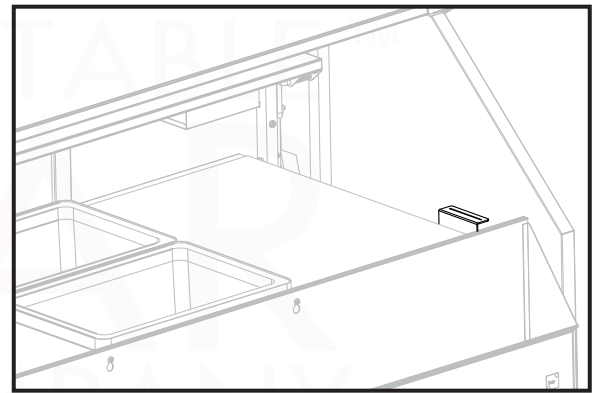

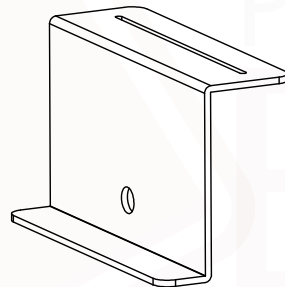

Note: Parts are not to scale.

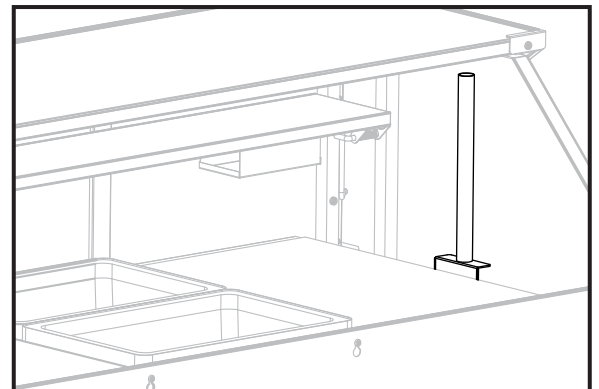

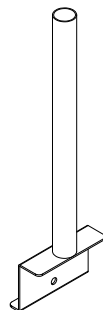

Cup
Holder

Knife
Holder

Paper
Towel
Holder

**Note: All accessories attach with
provided M6 screws and allen wrench.**

Note: You may lower down the levelers during the set up process to help ease the installation.

Levelers are located on both sides of the bottom part of the back panel.

STEP 1 Remove the counter top and speed rail.

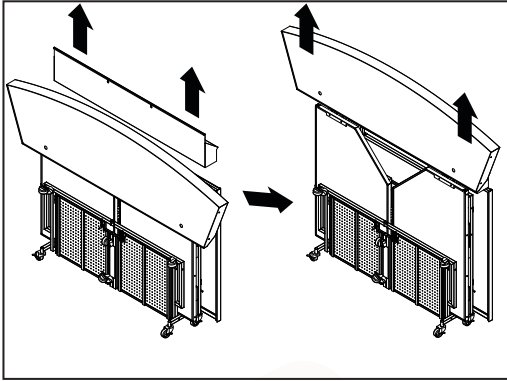

Figure 1

STEP 2 Release the bottom grill by detaching the security hook.

CAUTION: BOTTOM GRILL WILL DROP DOWN AS YOU RELEASE THE HOOK

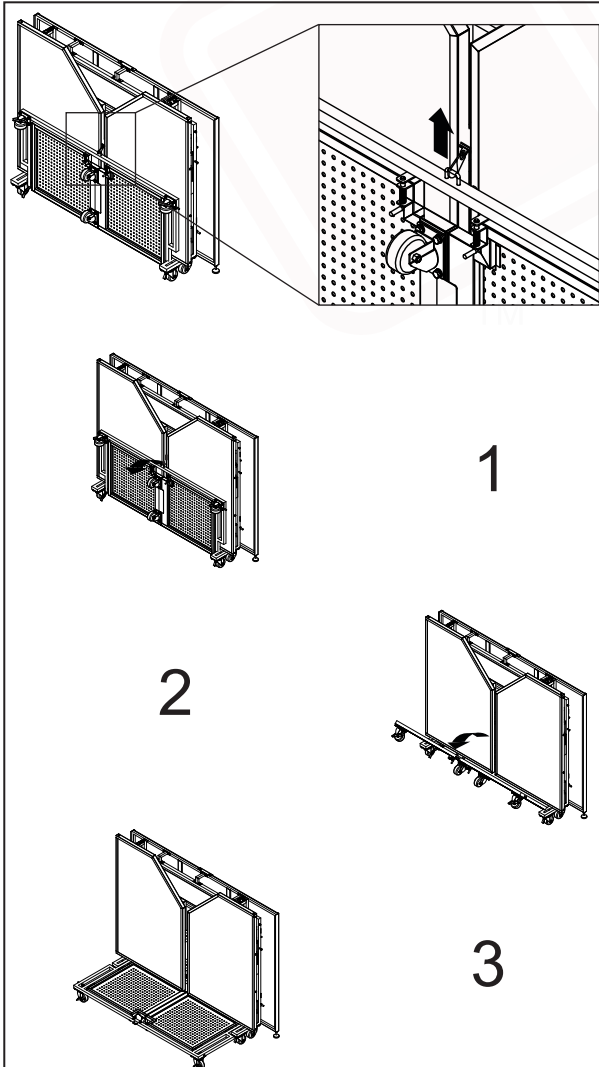

Figure 2

STEP 3 Swing open side frames to set it in place.

DANGER: USE CAUTION WHEN MOVING THE SIDE FRAMES TO AVOID DROPPING

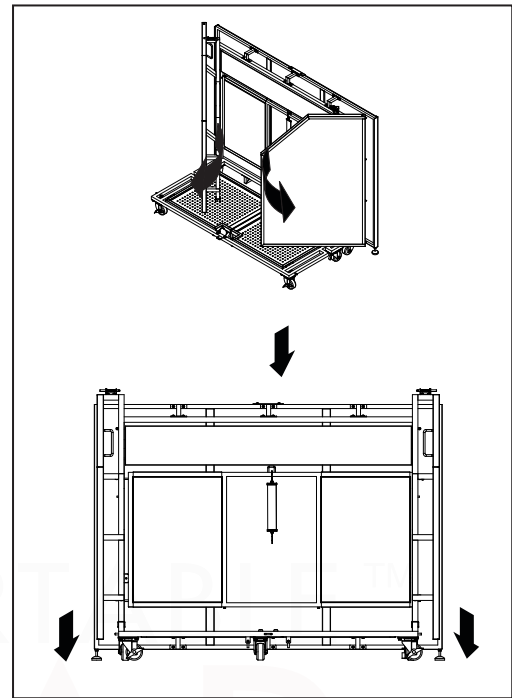

Figure 3

STEP 4 Secure the side frames in place using two locking pins, one on each frame.

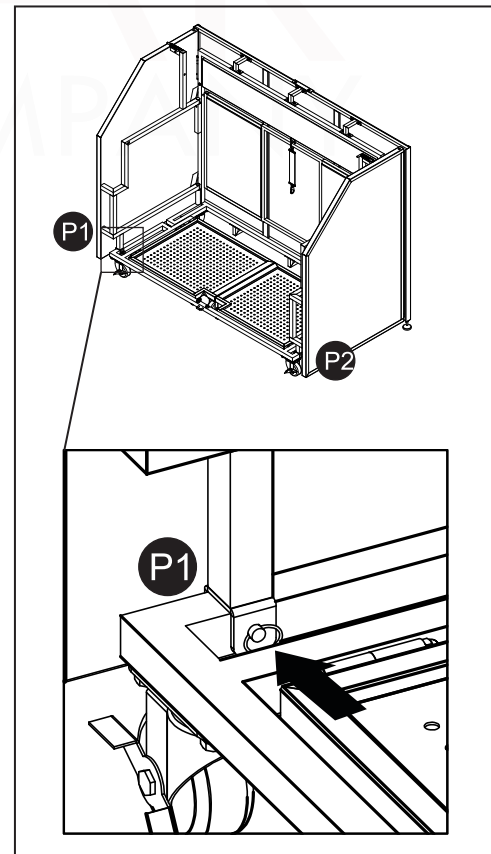

Figure 4

STEP 5 Flip the shelf up and lock it into place using the spring latches: P3 and P4.

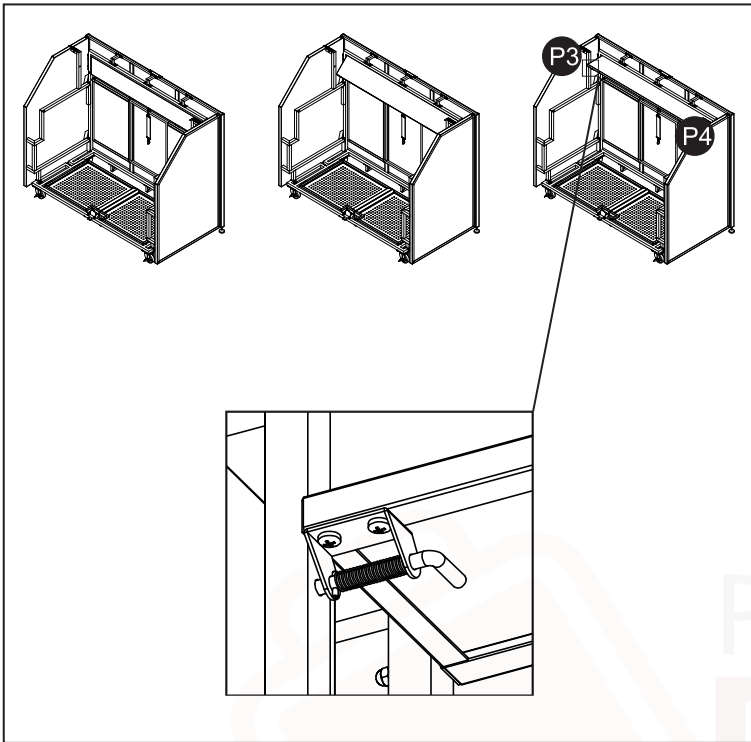

Figure 5

STEP 6 Flip the work surface and lock it into place using the spring latches P5 and P6.

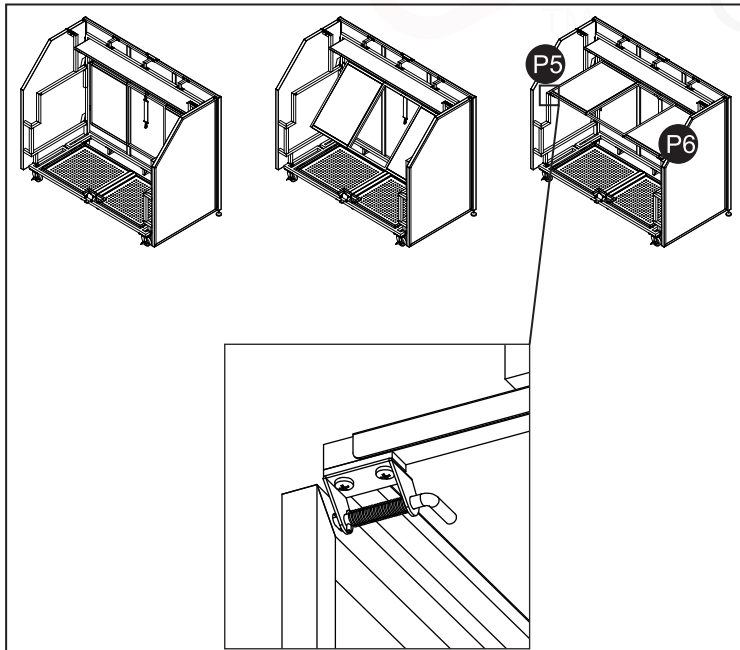

Figure 6

STEP 7 Lastly, hang speed rail from the posts on both sides of the bar and install your provided plastic ice bins or stainless steel ice bins if you opted for the add-on. Be careful when installing ice bins to prevent damage to the bar.

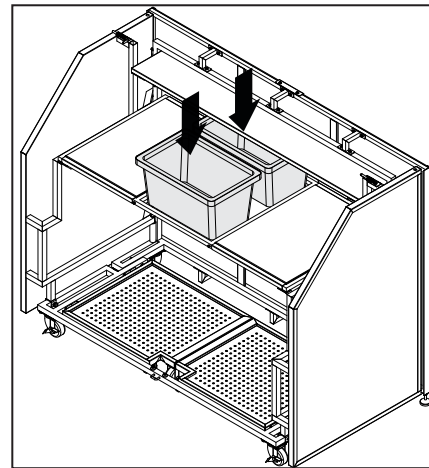

Figure 7

Note: The positions of the cutting board and the ice bins are interchangeable

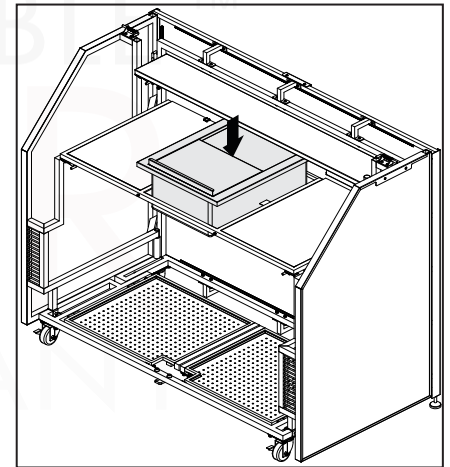

Figure 8

Stainless Steel Ice Bins can be equipped with a gray water tank. If you opted in for this add on, place the gray water tank on the bottom shelf. Make sure the drain attachment is installed tightly and to place drain hose in the tank's opening.

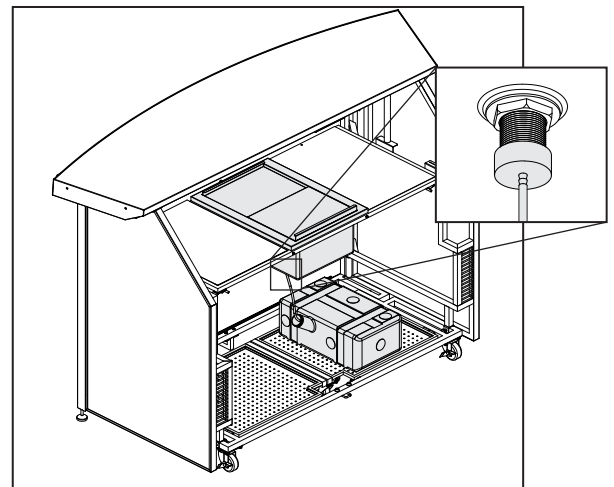

Figure 9

STEP 8 Place the counter top. Then lock it in place using the spring latches **P7** and **P8**. Before placing the counter top you can retain both spring latches with the inner frame for ease of placing the counter top.

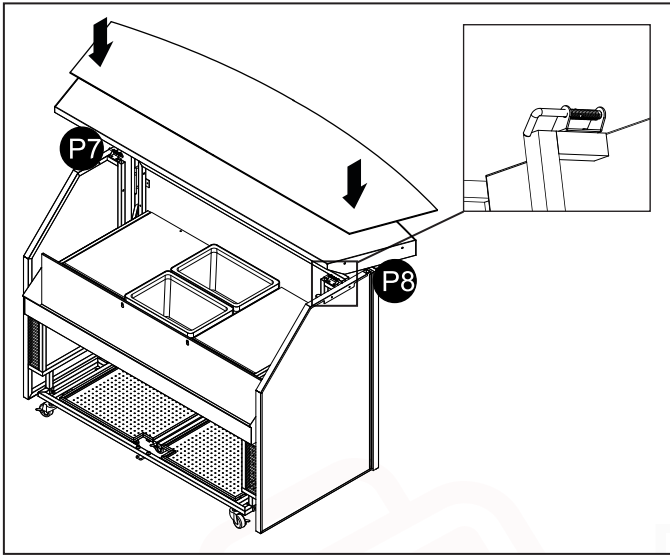

Figure 10

STEP 9 Place the speed rail.

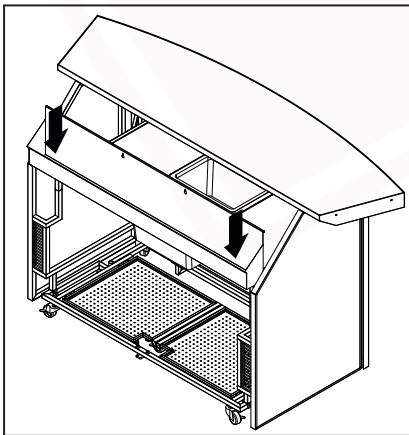

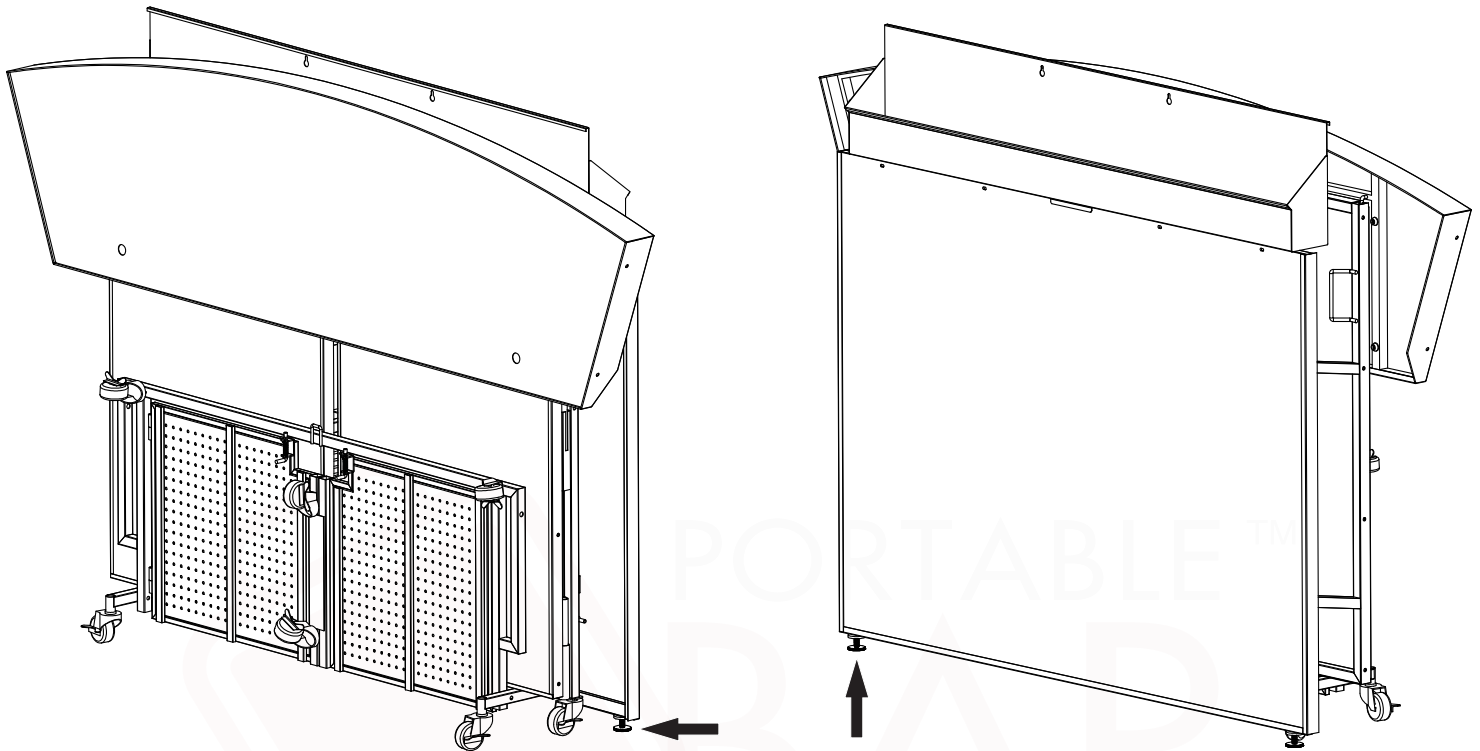

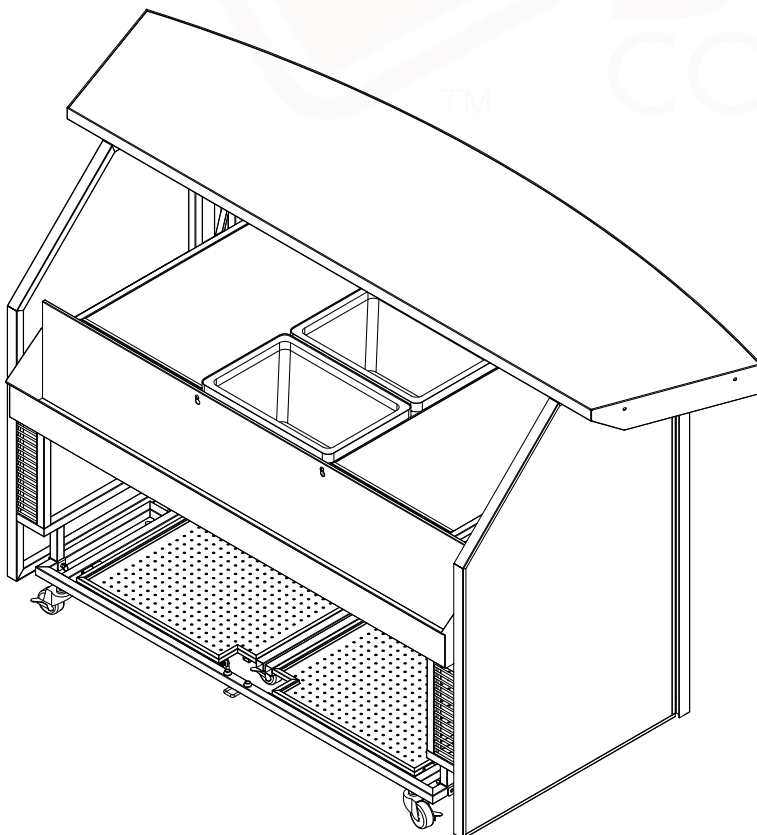

Figure 11

Folded

Note: Remember to put down the levelers before folding the bar.

Unfolded

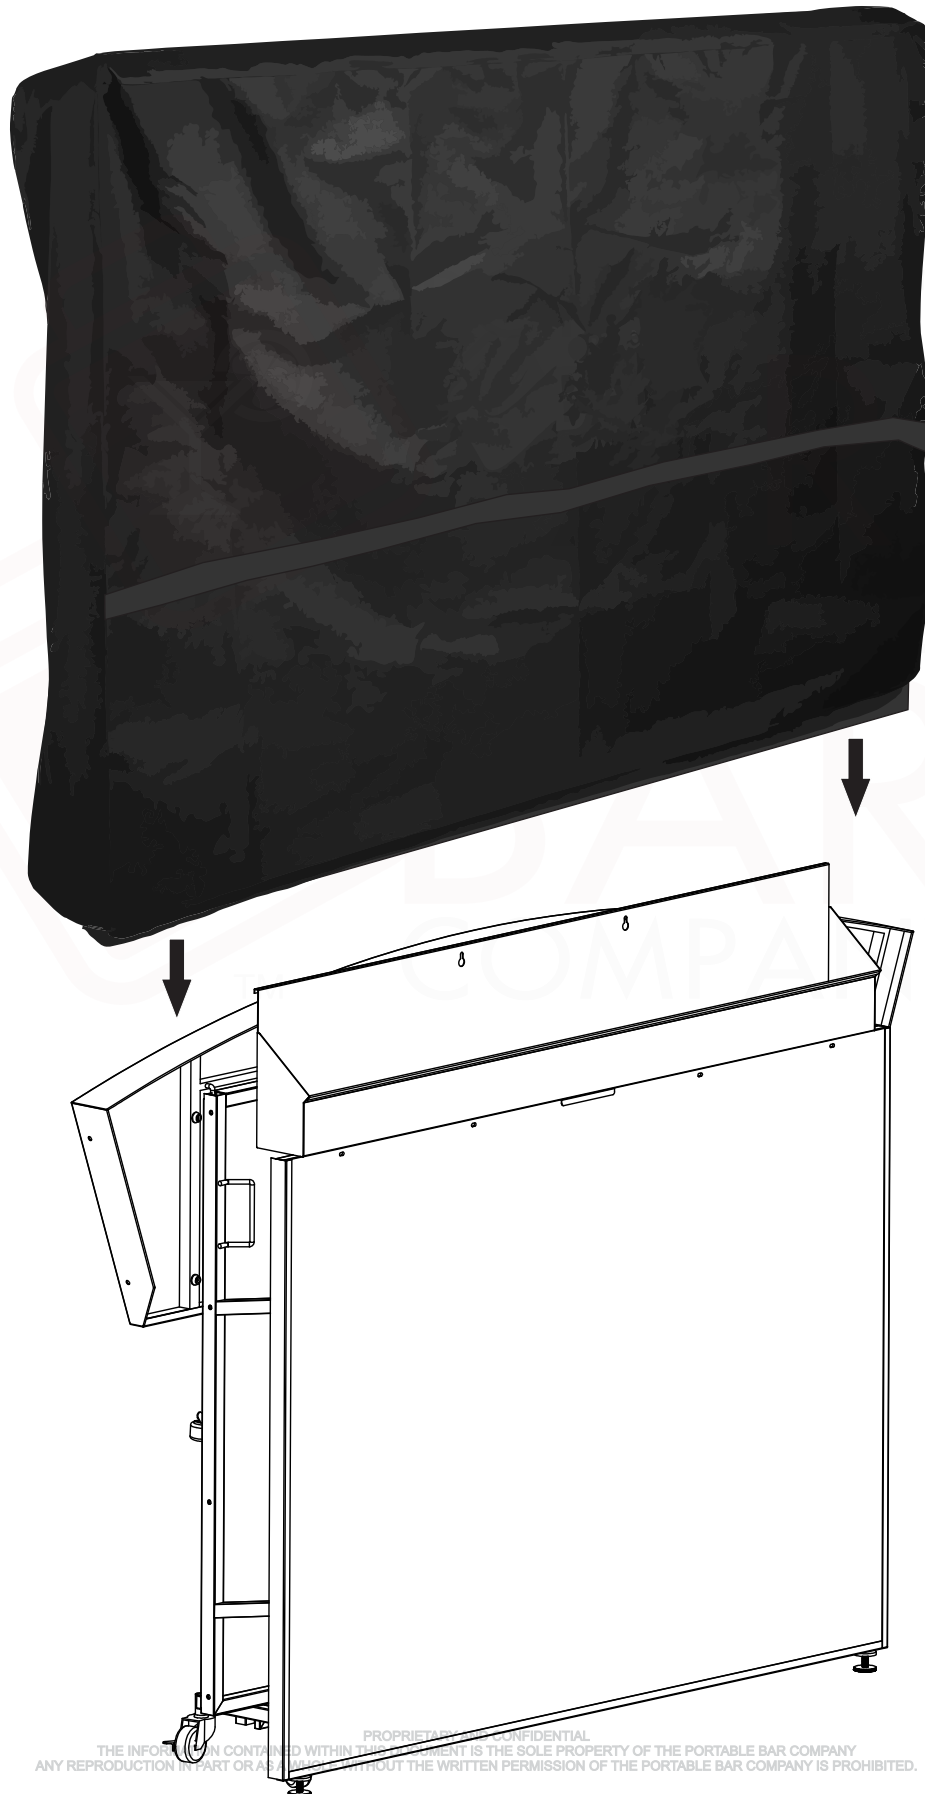

Notes to remember

*Do not move bar long distances fully stacked.
Roll up levelers before moving bar.
Do not roll bar over uneven surfaces.
Two persons required to move bar.*

Cover

Note: Make sure cover is installed as shown below.
Cover's bag should be on the front panel bar's side

Top Panel

STEP 1: Underneath the counter you'll find two holes from where you can push the acrylic up.

Note: Remove protection film from acrylic.

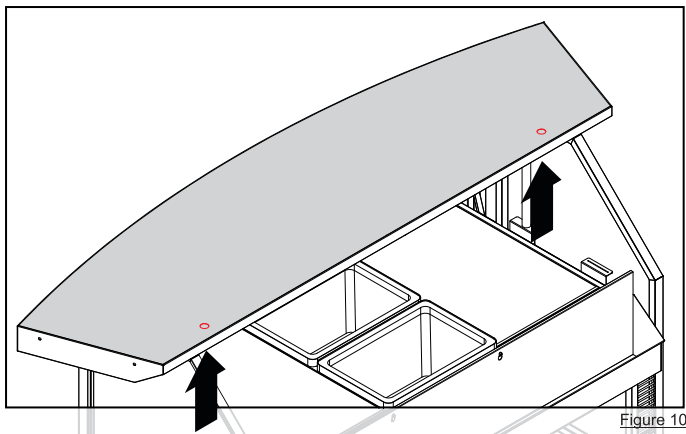

Figure 10

STEP 2: Once up, take out the acrylic.

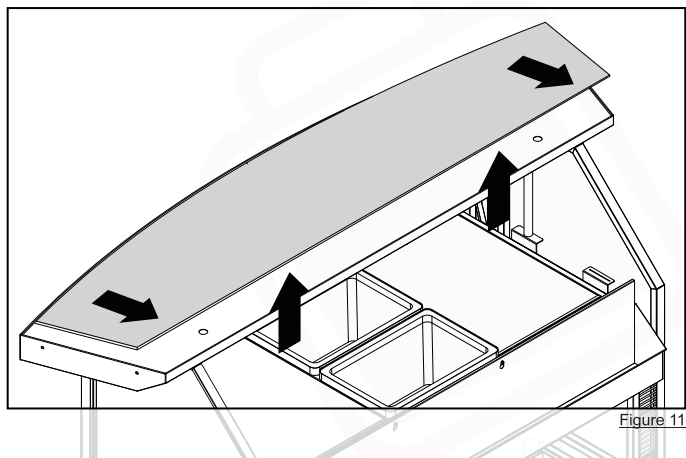

Figure 11

Note: Store acrylic counter in pocket of folded cover when not in use

Back Panel

Note: Follow setup steps in reverse order to fold down the bar.

STEP 1: Remove screws S1 and S2. Then remove the tab as shown below.

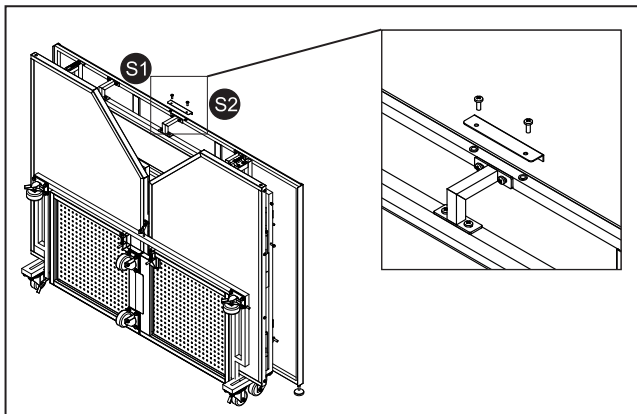

Figure 12

STEP 2: Pull up the acrylic panel.

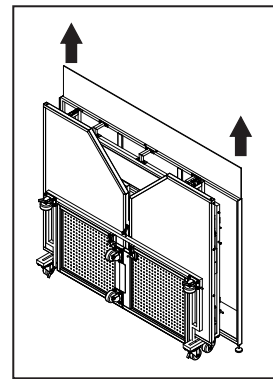

Figure 13

Side Panel

Note: Follow setup steps in reverse order to fold down the bar.

STEP 1: Remove screws S3, S4, S5 and S6. Then remove the side frame as in the next step.

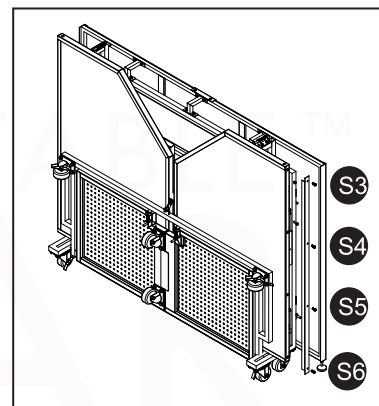

Figure 14

STEP 2: Slide out the side panel.

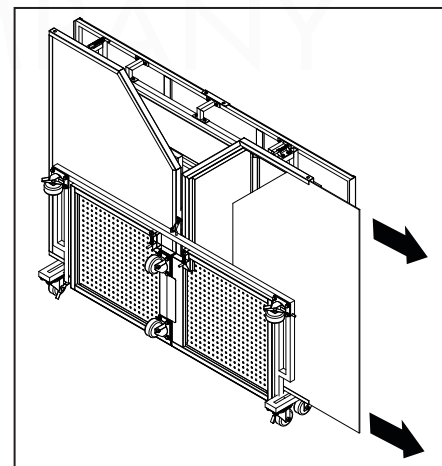

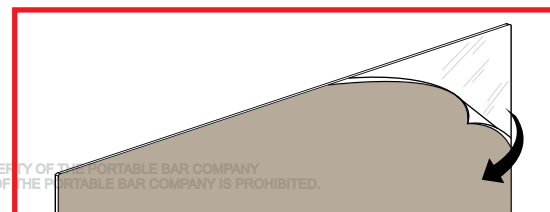

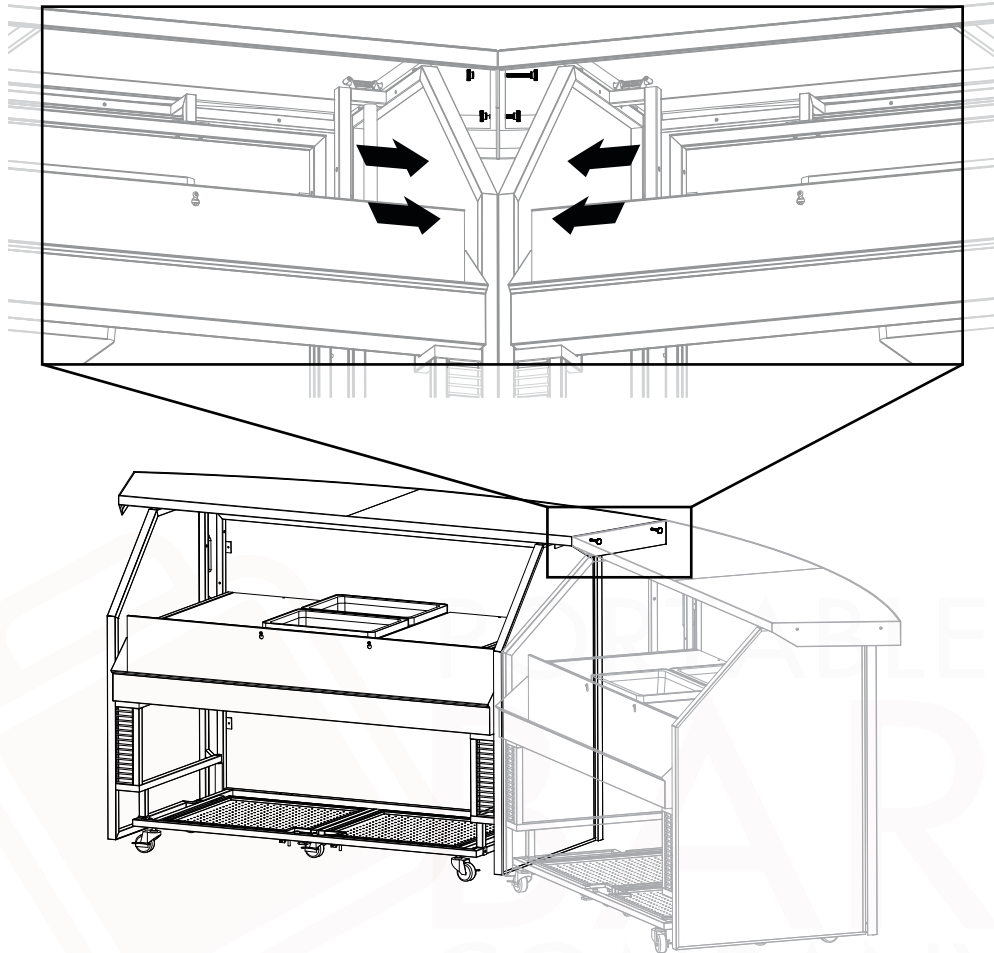

Figure 15

ON ACRYLIC PANELS ONLY

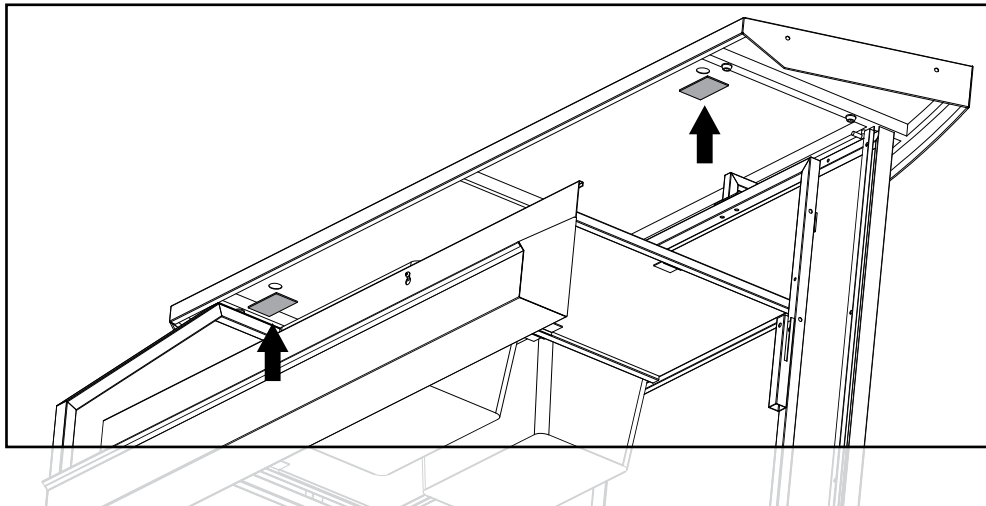

Remove the brown protective film on one or both sides before installing the panels, otherwise, the panels could warp. If you got vinyl printing, the protective film will only be on one side. Don't remove the vinyl printing.

Use provided thumbscrews to connect multiple counters. Run each thumbscrew through the holes in the side and fully tighten.

The included magnet squares are to cover the holes on the under side of the counter, as shown. These are intended to block light from the LED system or other light sources when applicable.
