FOLDING BARS
ON WHEELS

WHY THE PORTABLE FOLDING BAR?

SEE A RETURN ON YOUR INVESTMENT...FAST

Reduce lines during peak hours, add a point of sale poolside or grab more eyeballs on your next product launch. Rent out advertising space to sponsors and clients, reduce set up times with staff and handle large events while freeing up storage space.

QUICK & EASY SET UP

Our bars set up and tear down easily within minutes, saving you and your staff time.

TRULY PORTABLE

Individually locking, industrial strength casters in steel casings make it easy for you to roll any of our bars from one place to the next.

INCREDIBLY FUNCTIONAL

Ice bins, cutting boards, speed wells, foldable shelving, interchangeable panels and other handy features – all carefully included to make your staff's job easier, so they can focus on the truly important stuff.

SPACE EFFICIENT

All of our portable bars fold quickly and easily, saving you valuable storage space. Each bar includes a polyester cover to protect your bar when not in use.

PROFESSIONAL APPEARANCE

The stylish, semi-permanent appearance of our bars will add a level of professionalism to your events. Each bar has been carefully designed to compliment your decor – instead of taking away from it.

HIGH QUALITY CONSTRUCTION

Each bar is constructed from high grade steel with a durable clear coat or powder coat finish – the same finish commonly used on cars in the auto industry. The interchangeable panels are made out of thick, high quality acrylic. The result is a rock-solid bar that will impress your clients and stand the test of time.

FULL COLOR GRAPHICS

Add eye-popping, full color graphics to any or all of the four panels allowing you to personalize a client's special day, add a company logo or promote a product launch.

LED LIGHTING

Include LED lighting to create a cool, nighttime vibe or to draw attention to your product. Plug directly into the wall or into the 8 hour rechargeable battery (included) and easily change the color and pattern with a touch of a button.
PROFESSIONAL BAR CURVED COUNTER

Folds to 16.5" in 5 minutes

FEATURES

• Available in white or black powder coat frame
• Heavy-duty steel construction
• Interchangeable Panels - Translucent white acrylic, colored acrylic, custom graphics or laminates

FLASH BAR™
MODULAR SYSTEMS

WHAT IS THE FLASH BAR?

The Flash Bar is a modular stainless-steel bar system that can be used indoors or outdoors. Its portable in that it can be set up/ broken down in minutes, usually without tools. When broken down it can be carried in pieces or transported in cases on wheels.

The Flash Bar is purchased in segments which can be mixed and matched onsite to create unique bar shapes. The interior can be customized by picking from a wide variety of accessories. Plus, there are over 700 finish options for the exterior including led lighting, laminate and vinyl printing.

Build custom bar shapes

by mixing and matching 6 different shaped segments

transport the bar by breaking them down into smaller pieces in minutes
* Matching Back Bars are available too

CLICK HERE
To Create your own Flash Bar with our Bar Builder on our website

Takes less than 5 minutes to fill out. It calculates the price, the bar footprint, and generates a rendering in real-time.

BENEFITS OF A STAINLESS STEEL MODULAR DESIGN

EASY TO TRANSPORT & STORE

Every segment breaks down into smaller pieces for easy transport or storage. The heaviest piece weighs less than 20 pounds. When broken down, each piece lies flat or stacks.

FAST SET UP & TAKE DOWN

Each segment takes 2 minutes to set up or take down. Every piece locks into place with little effort, NO TOOLS REQUIRED ON MOST SEGMENTS.

OPTIONAL ACCESSORIES

There is a wide selection of accessories to pick from. You can add ice bins, sinks, speed rails, LED lighting, wood counters, signage, laminated paneling, and more.

RETROFIT

All the segments and accessories can be mixed -and matched allowing the customer to order additional pieces, replacement parts, and more accessories at a later point.

DURABLE CONSTRUCTION

The Flash Bar's internal structure is 100% stainless steel. It is sturdy enough to be used every day as a substitute for a permanent bar. It's also resilient enough to endure the stress of constant transport.

EASY TO CLEAN

The working surface, customer counter, and accessories are easy to remove. This allows the customer to keep every inch of the bar clean with minimal effort.
FLASH BAR SEGMENTS

STRAIGHT SEGMENT

Adds Length & Holds Accessories

INCLUDES
• 2 Levelers
• 1 Side Frame
• 1 Support Bar at the bottom
• 1 Front Frame

BAR
COMPANY

ADA-COMPLIANT FLASH BAR SEGMENT

With the *ADA-Compliant Flash Bar segment, everyone's invited. ADA counter height requirements help restaurants and other venues create spaces that work for all their customers regardless of ability. The ADA-Compliant Flash Bar segment was designed with our customers and their customers in mind.

As an add-on to the Flash Bar Modular Systems, the ADA segment has all of the same important features. It has the same stylish and durable stainless steel frame that can be joined to any other segment in the Flash Bar line. It can be broken down and stored flat or carried to virtually any type of location. The panels can feature signage, custom artwork, branding, or a laminate finish.

The 34" counter height, 60" width and 60" (W) x 22" (D) x 27" (H) of knee space makes the ADA-Compliant Flash Bar segment useful as a lowered quick-service counter in addition to wheelchair accessibility.

* The Americans with Disabilities Act (ADA) protects all individuals with disabilities by prohibiting discrimination and ensuring equal opportunities and reasonable accommodation.

INCLUDES
- (1) Bar Segment w/ glossy black acrylic counter
- White ACP panels
- 2 stainless steel working shelves.
- (1) Steel side frame w/ (2) feet

DIMENSIONS
5' 8" Wide x 3' Deep x 3' 8" Tall
Weight: 180 lbs.

FLASH BAR ACCESSORIES

25 LBS DROP-IN ICE BIN

• Stainless Steel Ice Bin with Lid
• Dual Function Shelf with Cutout (fits sink or ice bin)
• Fits in Straight Segment & Circle Segment

PORTABLE BAR COMPANY

The Portable Bar Company is proud to offer a commercial grade, stainless steel four basin sink that fits into the popular Flash Bar Modular System. Implement the best practice of a three basin wash, rinse, sanitize process with the added convenience of a hand washing station. A six inch partition divides the hand washing basin from the dishwashing basins to prevent cross contamination.

The Four Basin Sink upgrade is designed to work with the Flash Bar straight segment.

4 BASIN SINK KIT WITH FAUCETS AND DRAINS

This sink kit allows you to connect your own plumbing system.

INCLUDES
• 16 Gauge 304 Stainless Steel 4-Basin Sink
  • 1 Handwashing Basin
  • 3 Dish / Solvent Basins

• 6in Backsplash
• 6in Partition Between Handwash and Solvent Basins
• Drain Plugs Included
• Fits in Straight Segment only

FULL SELF CONTAINED 4 BASIN SINK SYSTEM

The included plumbing system creates a fully self contained solution for venues and events.

INCLUDES
• 4 Basin Sink Kit with Faucets & Drains
• Stepped Down Bottom Shelf
• (1) 5 Gallon High-density Poly-ethylene Tank
• (1) 6 Gallon High-density Poly-ethylene Tank

• 1.9GPM Water Pump
• Surge protector and Power adapter
• System Fittings and Hoses
• 2.5 Gallon Electric Water Heater (Adjustable water temperature from 50F to 140F)
• PVC Plumbing
• Fits in Straight Segment only
• Does not work with with Rolling Base(p 29)

LARGE SINGLE SPEED RAIL

42" Wide x 4" Deep x 6" Tall

Accommodates as many as 10 one-liter bottles

Fits on Straight Segment only

HALF SINGLE SPEED RAIL
Accommodates as many as 5 - 6 one-liter bottles

Fits on Straight Segment & Circle Segment

HALF TIERED SPEED RAIL
Accommodates as many as 10 one-liter bottles

Fits on Straight Segment & Circle Segment

SHOWMAN'S SHELF

This shelf attaches to the back left or right side of a Flash Bar straight segment counter. It can easily be attached or removed. It also comes equipped with drainage holes for over pours.

PORTABLE BAR COMPANY

ROLLING BASE FOR FLASH BAR

For Straight and 90⁰ segments.

Only works with basic Stainless Steel Sink Kit & Grey Water Sink.

Rolling base only works on hard flat surface

Maximum of four segments can be moved while connected.

Caster: 3"

SODA GUN MOUNT

The 40mm (1.57") holster fits the most popular brands on the market.

Made of 304 stainless steel.

Fits in Straight Segment.

5' clear vinyl drain hose included.

*Soda gun sold separately

RIGHT SIDE ACCESSORY SHELF FOR SINK & ICE BIN

DOUBLE CUT-OUT ACCESSORY SHELF

EXTERIOR OPTIONS

The Flash Bar segment comes with white Aluminum Composite Panels and Black Acrylic Counters. Both the counter and the panels are inserts that attach to the stainless steel frame. The bar looks finished and modern as is, but there are hundreds of exterior upgrade options that fall within the material types below, that one can use to create a unique look.
UPGRADE OPTIONS FOR YOUR FRONT
(CUSTOMER FACING PANELS)

HIGH PRESSURE LAMINATE PANELS - Comes in wood grains, planked wood, metallic, stone, and colorful patterns. The laminate is attached to the ACP Panel. See https://Wilsonart.com/laminate/design-library for a full list of finish options.

VINYL PRINTING - Wrap the bar in vinyl. Much like a car wrap - we can print most vector artwork including logos, pictures, patterns, and text assuming the design works with the shape of your bar. Vinyl comes in a Matte or Shiny Finish.

LED's - Comes with 8 color options and multiple speed and brightness settings. Controlled with a remote. Powered by a cordless battery or regular 12 Volt charging cord for US outlets

UPGRADE OPTIONS FOR YOUR COUNTERTOP

HIGH-PRESSURE LAMINATE COUNTERS
We can match your panel laminate selection. See https://Wilsonart.com/laminate/design-library for a full list of finish options.

SEA BOARD COUNTERS - Available in black or white. This is a marine grade material rated for horizontal install. Good for locations close to the water or environments with high humidity. This is the recommended counter top option if you wish who wish to use the bar outside.
FLASH BAR BACKBAR

This new modular unit can be used on its own or as a support unit behind your Flash Bar. You are able to combine multiple units together to make one large structure.

BACKBAR INCLUDES
• 1 Lower Side Frame with Feet
• 1 Upper Side Frame
• 2 Stainless Steel Working Shelves
• 2 Stainless Steel Upper Display Shelves
• 1 White Acrylic Panel
• GFI Outlet

END CAP KIT INCLUDES
• 1 Lower Side Frame with Feet
• 1 Upper Side Frame
• 1 Set Stainless Steel End Caps (Left & Right)

OPTIONAL UPGRADES
• Colored / Mirrored / Laminated Panels
• Locking Doors
• Middle Lower Shelf
• Top Sign / Large Top Sign
• LED Kit

FLASH BAR CASE

The Flash Bar Case is fitted with a guide inside. The guide is cut to precision so parts of your Flash Bar will fit and will not be damaged during transport.

Each case will fit one 90° Corner, 60° Corner or Straight segment.

DIMENSIONS
19" Deep x 39" Wide x 69" Tal
Caster: 4"

ROAD CASE

Each Road Case carries approximately two Flash Bar segments, depending on which pieces are packed.

DIMENSIONS
56" Deep x 32" Wide x 36" Tall
Caster: 4"

FLASH BAR BACKBAR CASE

The Flash Bar Backbar Case is an open space case. Perfect size to fit your Flash Bar Backbar to protect during transport and while storing.

Each case will fit one Flash Bar Backbar.

DIMENSIONS
28" Deep x 60" Wide x 45" Tall

Caster: 4"

FLASH BAR COVERS

The covers are also segmented just like the Flash Bar. Every Flash Bar segment has their own custom shaped cover. The covers can be configured to conform to the shape of the bar you have.

FLASH BAR BACKBAR COVERS

The Flash Bar Backbar covers are made of high quality, water resistant polyester material that have a modular design to protect your equipment. There are two versions available to coordinate with whatever Backbar setup you may have.

A set of end cap covers will be needed for each set of Flash Backbar end caps per configuration to fully cover the unit

WITH TOP SIGN   WITHOUT TOP SIGN

• Folds for easy portability

DIMENSIONS & WEIGHT
35.5 x 16.375 x 16.75 in
Weight: 29 lbs

OPTIONAL UPGRADES
• Black Finish
• Graphics
• Carrying Case

NSF CERTIFIED FLASH BAR

WHAT IS NSF CERTIFICATION?

Millions of people take the safety of their food, water and consumer products for granted on a daily basis. Why? Because of three letters: NSF. NSF certification is your key to making sure that the products you use meet strict standards for public health protection.

Having the Flash Bar NSF certified lets you know we met the strict standards and procedures imposed by NSF. From extensive product testing and material analyses to unannounced plant inspections, every aspect of a product's development is thoroughly evaluated before it can earn an NSF certification.

• Road Case

WHO IS USING THE FLASH BAR AND HOW?

Substituting a Permanent Structure or Using it as a Mobile Equipment Solution

Benefits for using the Flash Bar as a Substitute for a Permanent Structure

RESTAURANTS   BARS   HOTELS   CASINOS   COUNTRY CLUBS   BANQUETTE HALLS   CONCERT VENUES   STADIUMS

The bar's sturdy stainless steel construction makes the Flash Bar durable enough for heavy everyday use, just like a permanent bar.

Investing in a modular bar system as a substitute for a permanent bar allows a venue to add bar space in weeks for a fraction of the cost (compared to a full blown construction project.) Plus there are far less permit restrictions on modular set ups as compared to permanent ones.

Adding bar space to most venues will help increase profit by decreasing the time customers spend waiting in line for service. Serve more customers in less time.

By having the option to store the bar venues can take advantage of space that's only available certain times of the year, such as an outdoor deck or patio.

Having a bar that breaks down and sets up in minutes gives venues more flexibility in catering to customer's specific requests. Potential customers renting out the space would have the option to move the bar, change the shape, and even change the look of the bar. All of which would be impossible with a permanent bar.

Benefits of using the Flash Bar as a Mobile Equipment Solution.

MOBILE BAR BUSINESSES   TRADESHOW EXHIBITORS   RENTAL COMPANIES   CATERERS   BANQUET HALLS
PROMOTIONAL   TAIL GATING

Inspired by the success of the Portable Bar Company's foldable bar line, the Flash Bar's original purpose was to give mobile hospitality services a competitive edge by making high quality equipment companies can use on the go.

It's designed to be easy to transport . When broken down the heaviest piece is less than 20lbs and each piece either stores flat or stacks.

The Flash Bar's modular system makes looking professional on the go effortless. Set up or take down of one segment less than 2 minutes and requires no tools. Setting up quickly at many different places is one less thing you have to plan for.

The same amount of pieces can be set up in different formations so every set up will look tailor made for each event.

The bar's customizable panels, ability to change shape, and retrofit different accessories or segments, maximizes a company's range in providing ideal services to unique events.

The Flash Bar is purchased in segments and additional segments can be retrofitted. This means replacing pieces and upgrading the bars accessories will always be an easy option.
