Figure 4

STEP 5 Flip the shelf up and lock it into place using the spring latches: P3 and P4.

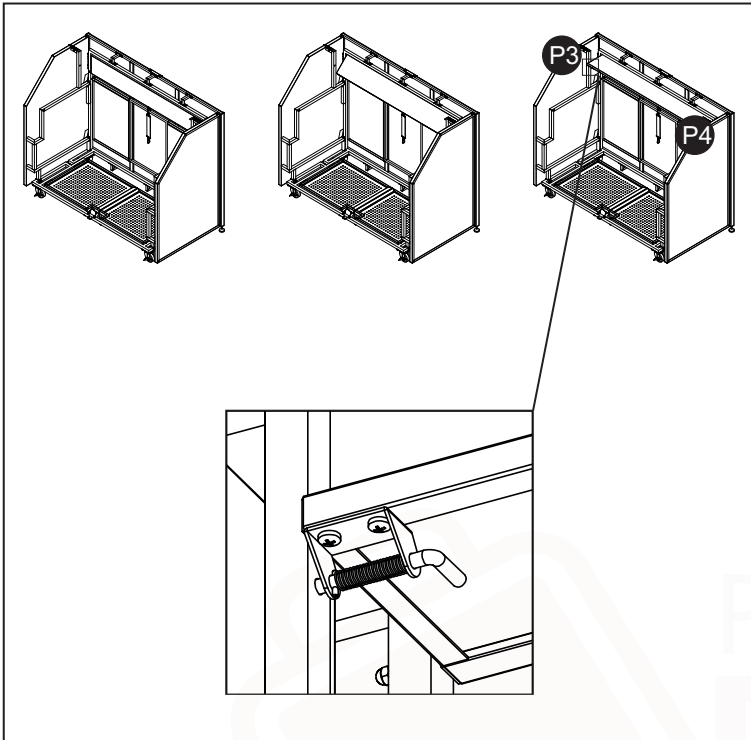

Figure 5

**STEP 6** Flip the work surface and lock it into place using the spring latches P5 and P6.

Figure 6

**STEP 7** Place the icebins.

Figure 7

Note: The positions of the cutting board and the ice bins are interchangeable

STEP 8 Place the counter top. Then lock it in place using the spring latches P7 and P8. Rest the acrylic piece on top of the counter.

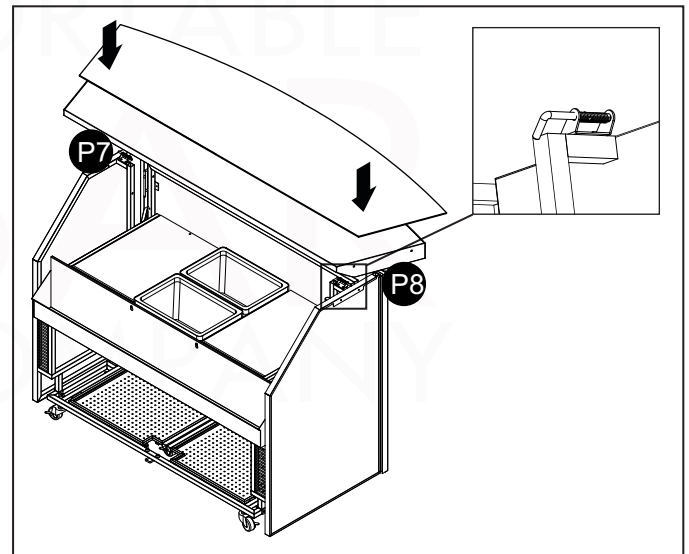

Figure 8

STEP 9 Hang the speed rail from the 3 posts located at the front tube of the top shelf, as shown below:

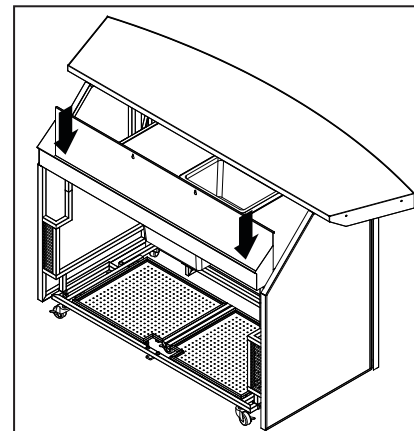

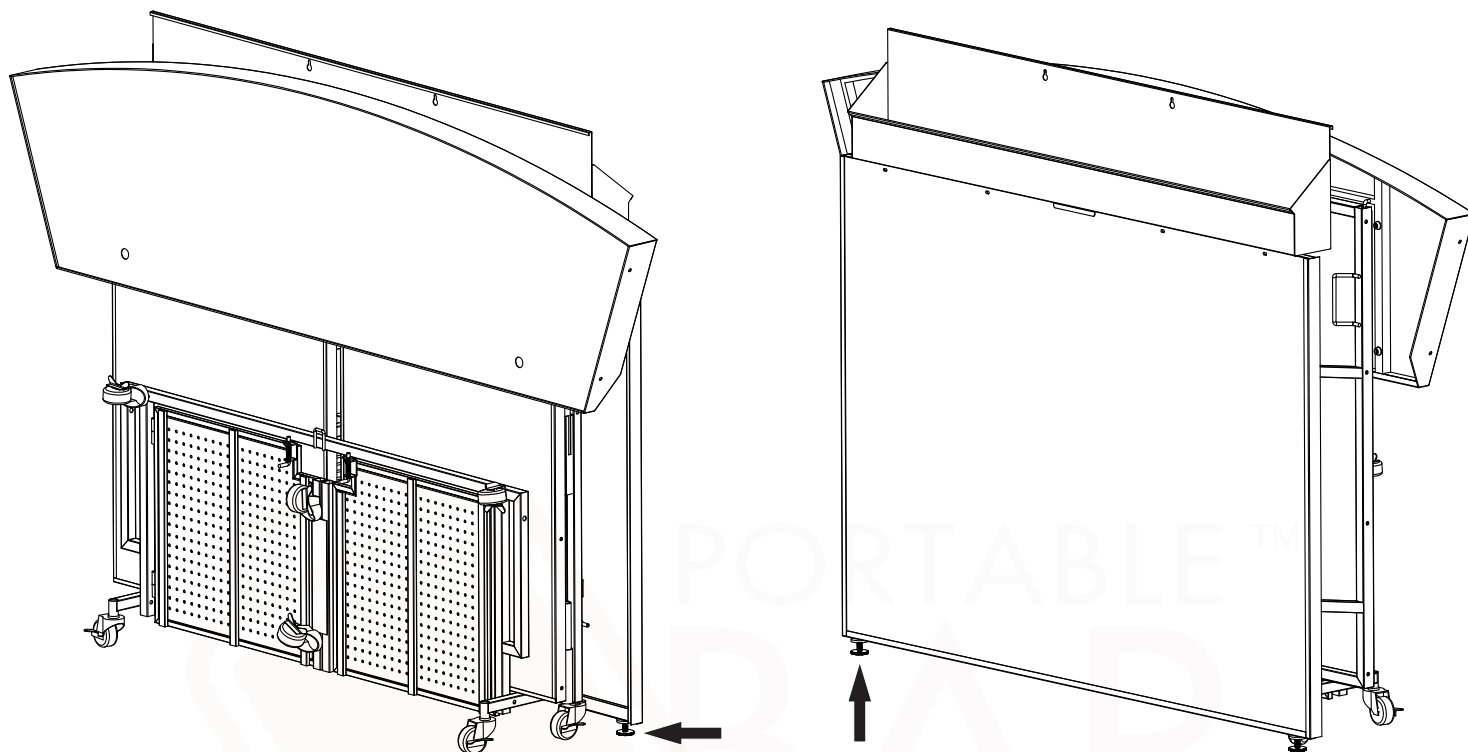

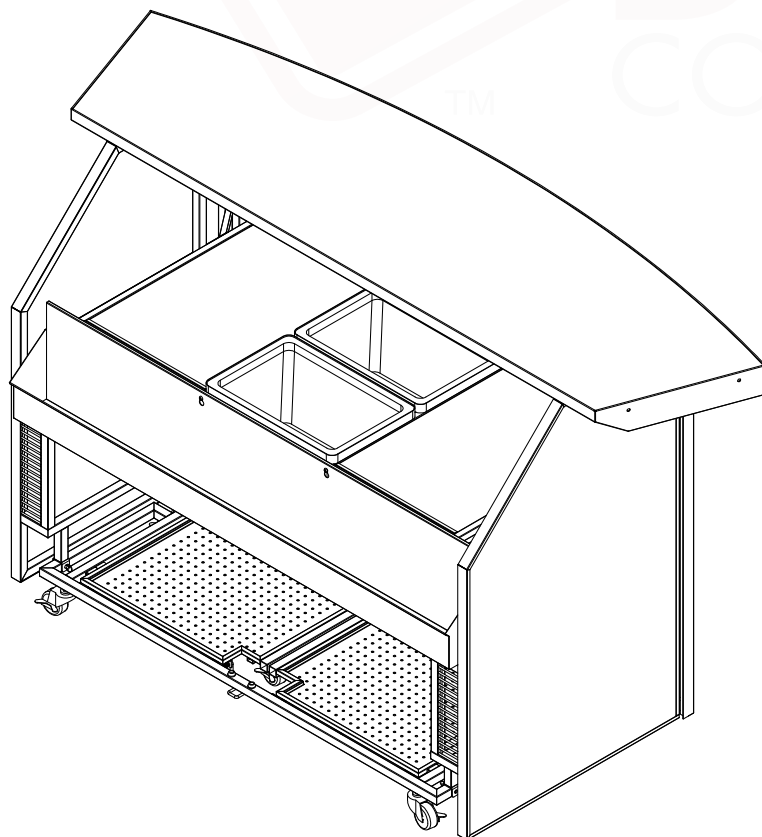

Figure 9

Folded

Note: Remember to put down the levelers before folding the bar.

Unfolded

Notes to remember

Do not move bar long distances fully stacked.
Roll up levelers before moving bar.
Do not roll bar over uneven surfaces.
Two persons required to move bar.

Top Panel

STEP 1: Underneath the counter you'll find two holes from where you can push the acrylic up.
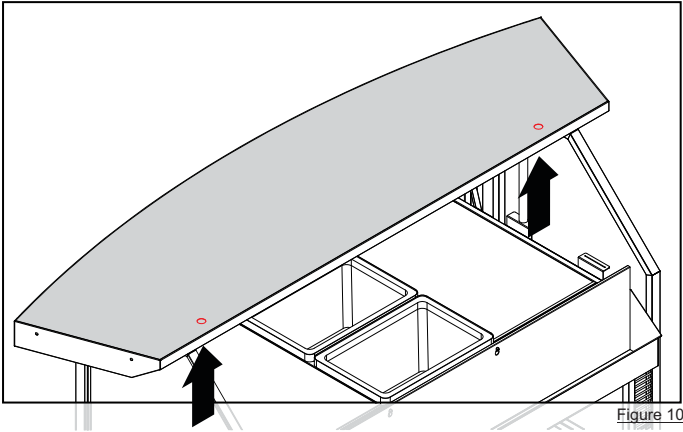

Note: Remove protection film from acrylic.

Figure 10

**STEP 2:** Once up, take out the acrylic.

Figure 11

Note: Store acrylic counter in pocket of folded cover when not in use

Back Panel
Note: Follow setup steps in reverse order to fold down the bar.

**STEP 1:** Remove screws S1 and S2. Then remove the tab as shown below.

Figure 12

STEP 2: Pull up the acrylic panel.

Figure 13

Side Panel
Note: Follow setup steps in reverse order to fold down the bar.

STEP 1: Remove screws S3, S4, S5 and S6. Then remove the side frame as in the next step.

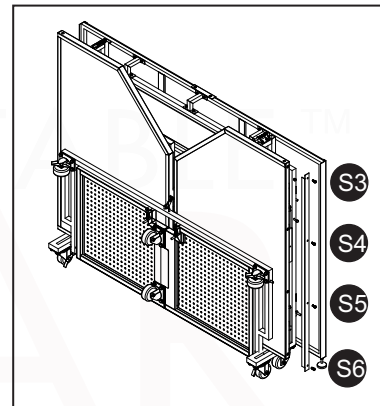

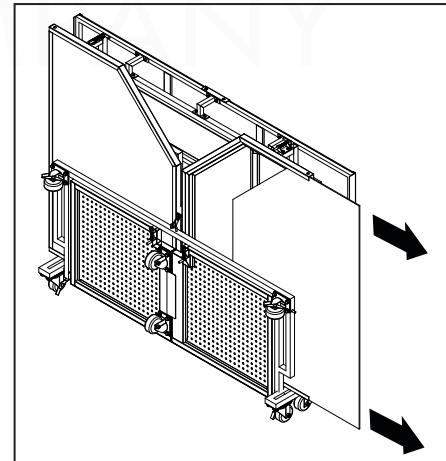

Figure 14

**STEP 2:** Slide out the side panel.

Figure 15

ON ACRILYC PANELS ONLY
Remove the brown protective film on one or both sides before installing the panels, otherwise, the panels could warp. If you got vinyl printing, the protective film will only be on one side. Don't remove the vinyl printing.

Use provided thumbscrews to connect multiple counters. Run each thumbscrew through the holes in the side and fully tighten.
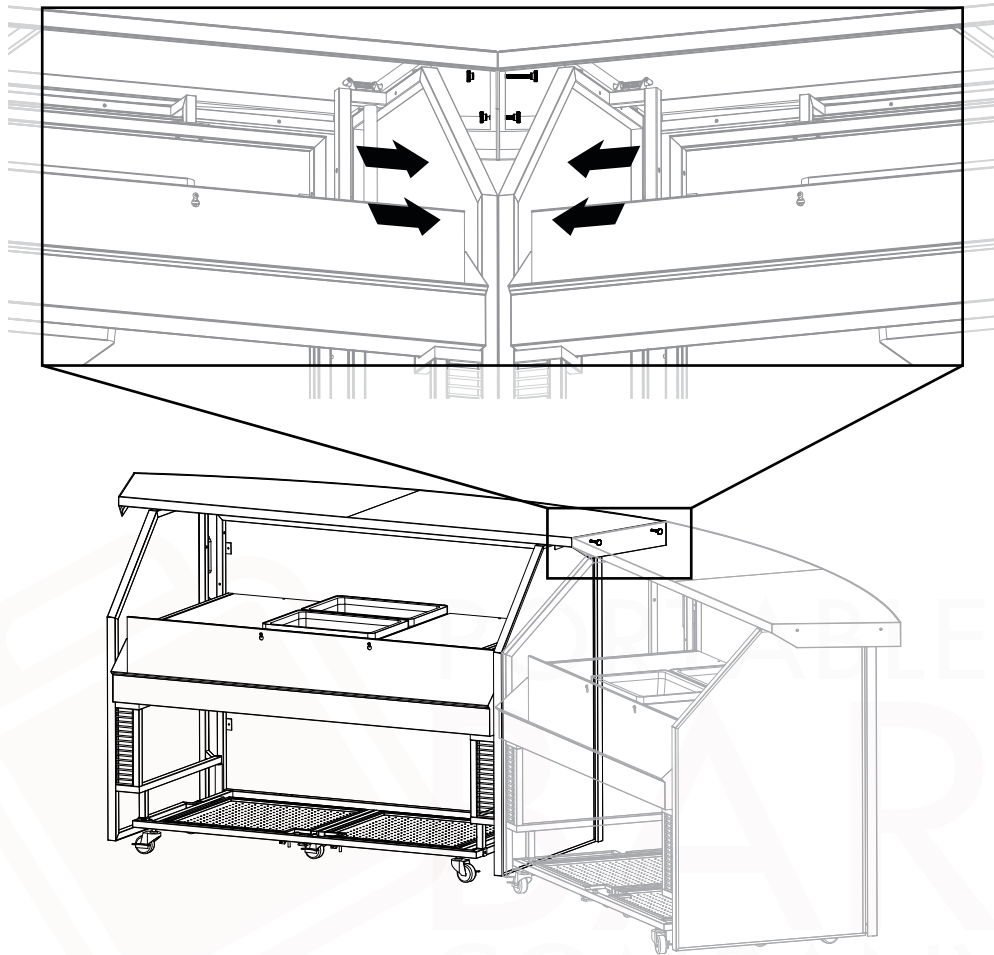

The included magnet squares are to cover the holes on the under side of the counter, as shown. These are intended to block light from the LED system or other light sources when applicable.
