Additional
Storage Shelf

STEP 1: First install feet on the bottom side frame by just sliding them in. Fix them in place by tightening the bolt cap on each foot.

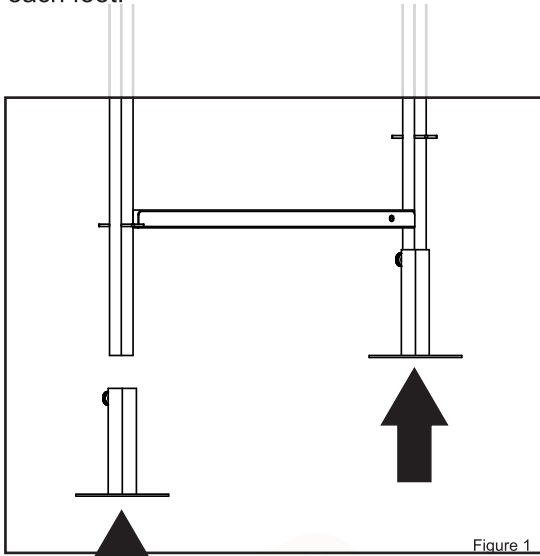

Figure 1

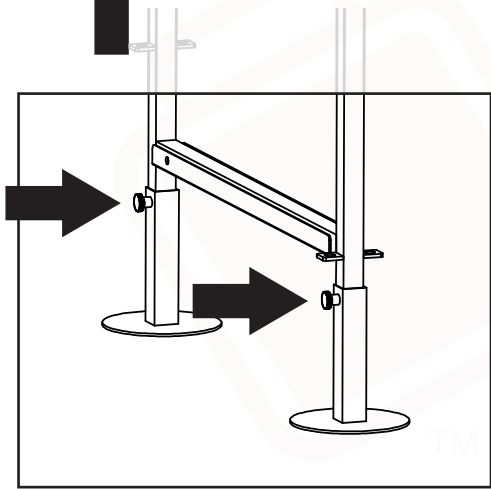

Figure 2

STEP 2: With assistance of other person install the back panel by just aligning the 4 posts on the sides of the back panel with the mounting brackets on the side-frames.

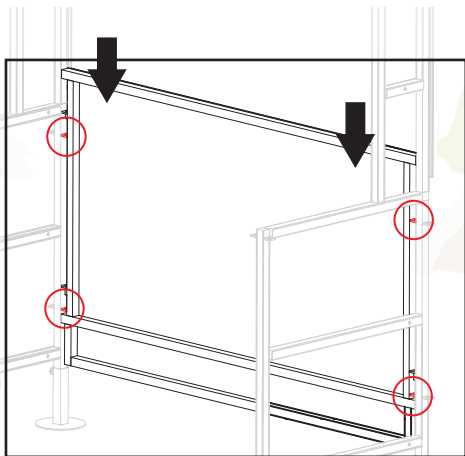

Figure 3

STEP 3: To attach the top side frame to the bottom part just align the square tubes of each other and slide it in. Repeat Step 1 and Step 2 for the second side frame.

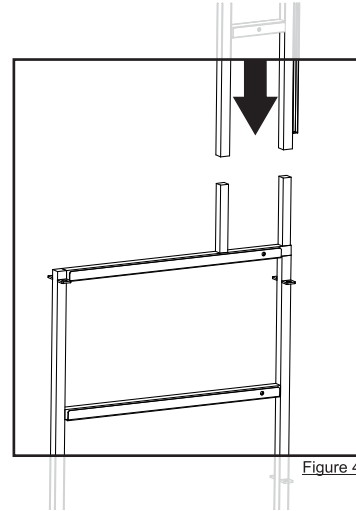

Figure 4

Note: If you purchased a LED Kit please continue the setup on Page 10.

STEP 4: To install the two upper shelves simply align them with the channels of the side-frames, as shown below:

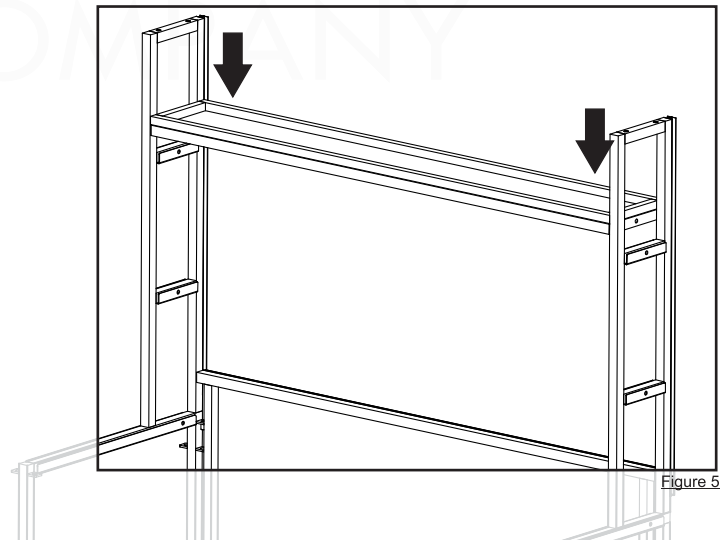

Figure 5

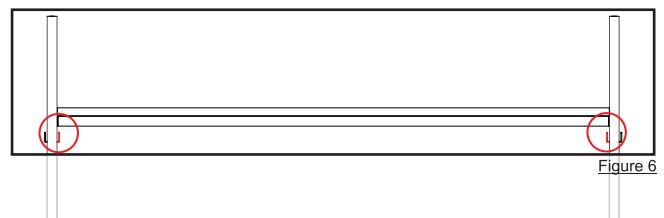

Figure 6

STEP 5: Lock the shelf in place by inserting a locking pin on both sides of the shelf, as shown below. Repeat STEP 3 and STEP 4 to install the second upper shelf.

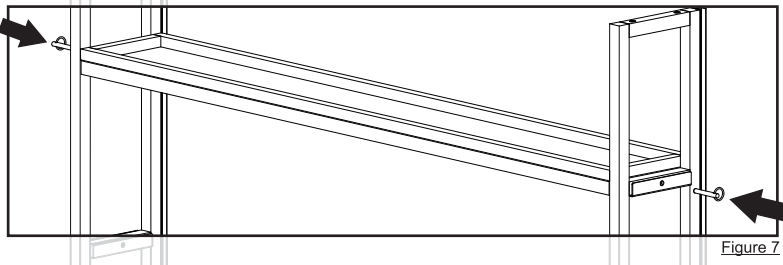

Figure 7

STEP 6: Slide from the top the acrylic panel. The use of a small ladder is highly recommended.

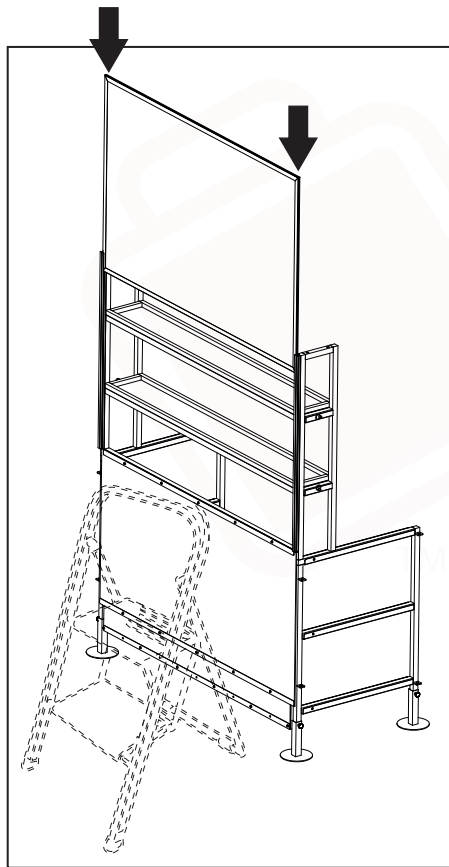

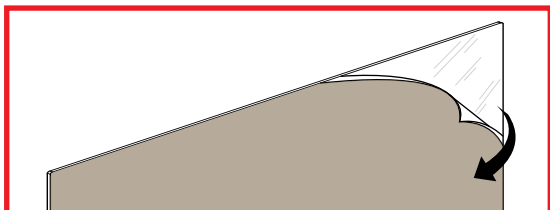

Figure 8

ON ACRYLIC PANELS ONLY

Remove the brown protective film on one or both sides before installing the panels, otherwise, the panels could warp. If you got vinyl printing, the protective film will only be on one side. Don't remove the vinyl printing.

STEP 7: Install the top support bar by bolting down four allen bolts. (Bolts and allen wrench included)

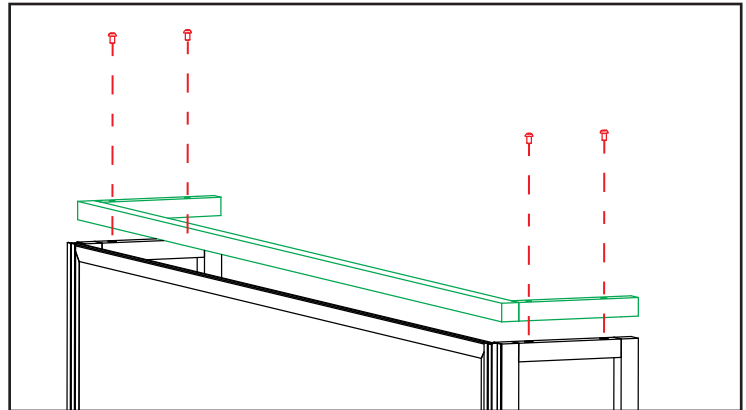

Figure 9

STEP 8: To install the lower shelves use the same process as for the upper shelves. Don't forget to fix them in place by adding locking pins.

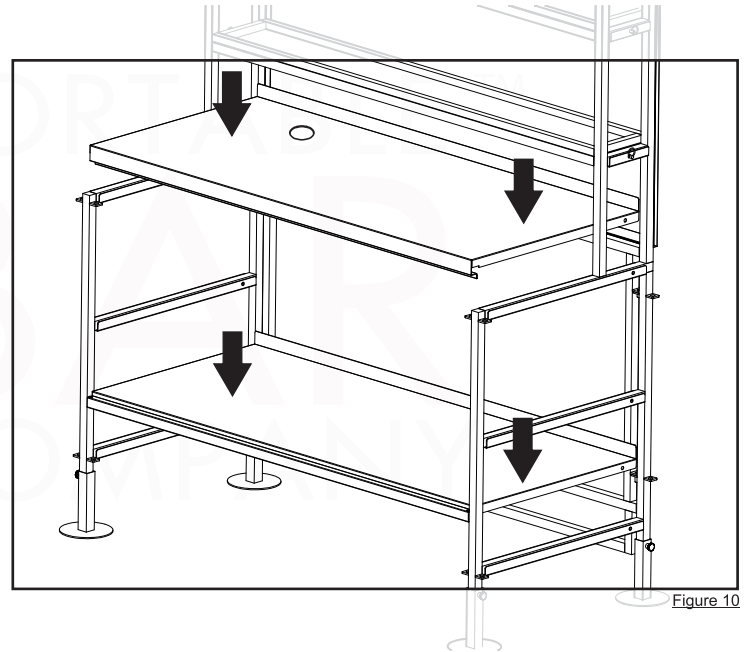

Figure 10

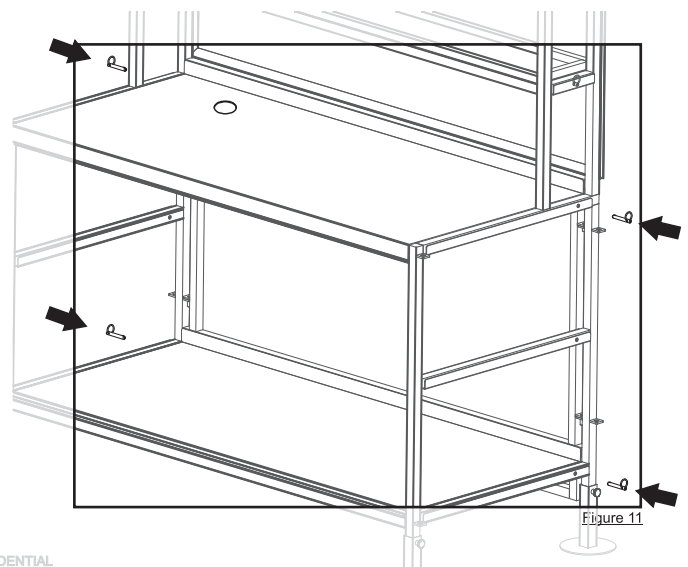

Figure 11

STEP 9: To attach the electrical box just align it with the two small L brackets mounted on the back panel and fix it in place with two provided thumb screws, as shown below.

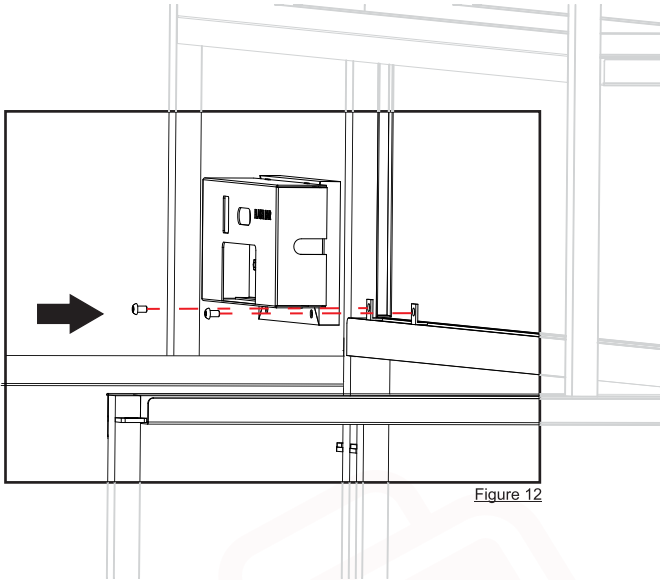

Figure 12

STEP 10: Lastly, install the end caps by just aligning the posts on the end caps with the mounting brackets on the side-frames.

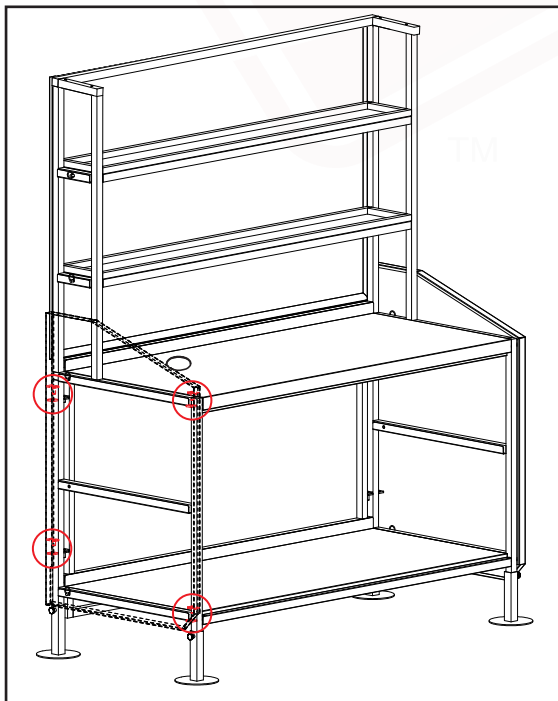

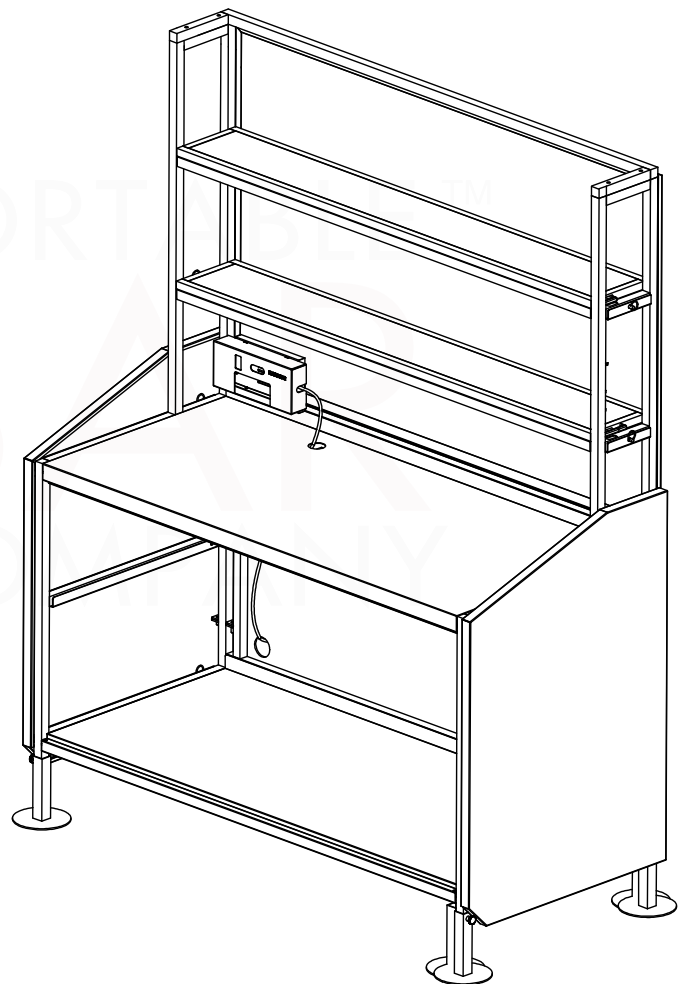

Figure 13

Full Assembly

Top Sign

STEP 1: Bolt down the sign through the blue triangular mounting brackets passing through the top support bar (in green). You'll need 4 allen bolts and a allen wrench. (All included)

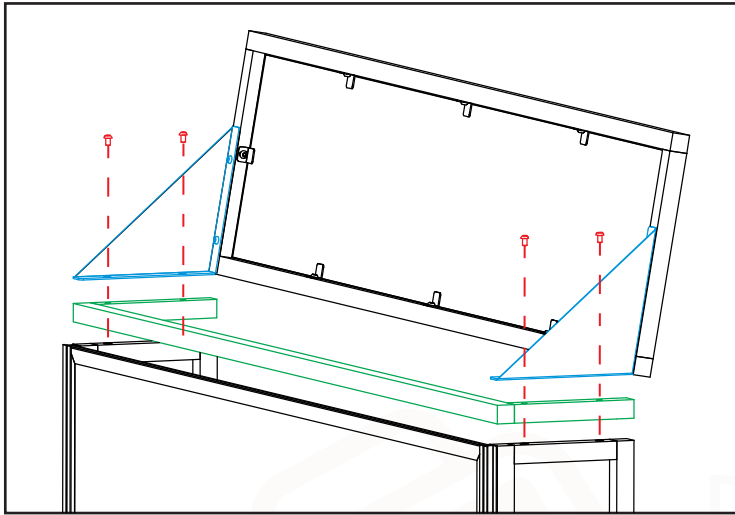

Figure 15

Note: You may install the top sign at any moment of the Large Back Bar setup after installing the top support bar.

Doors

STEP 1: Simply align the two spring latches mounted on top and bottom of the doors with the holes on the top and bottom shelves; as shown below. Repeat the process to install the second door.

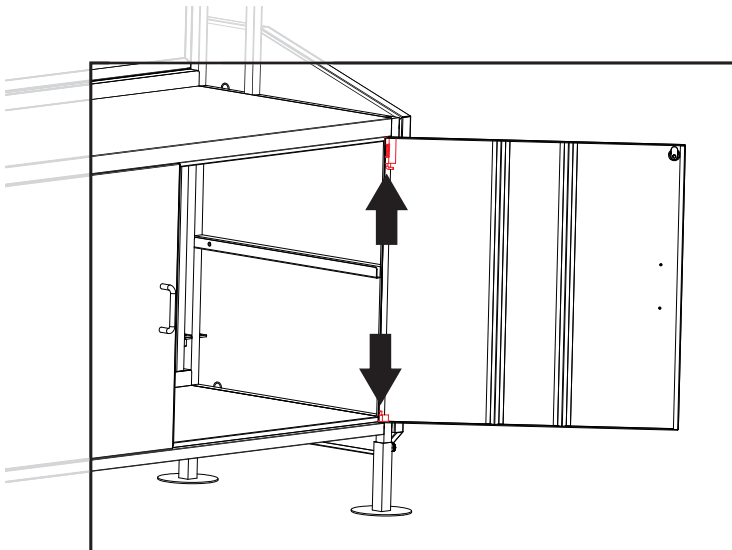

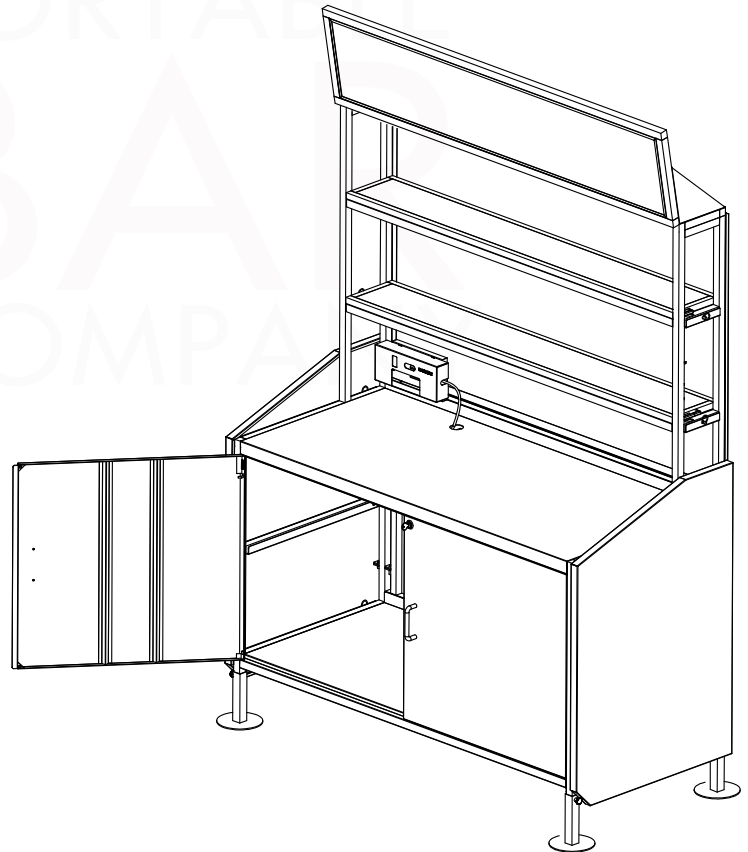

Figure 16

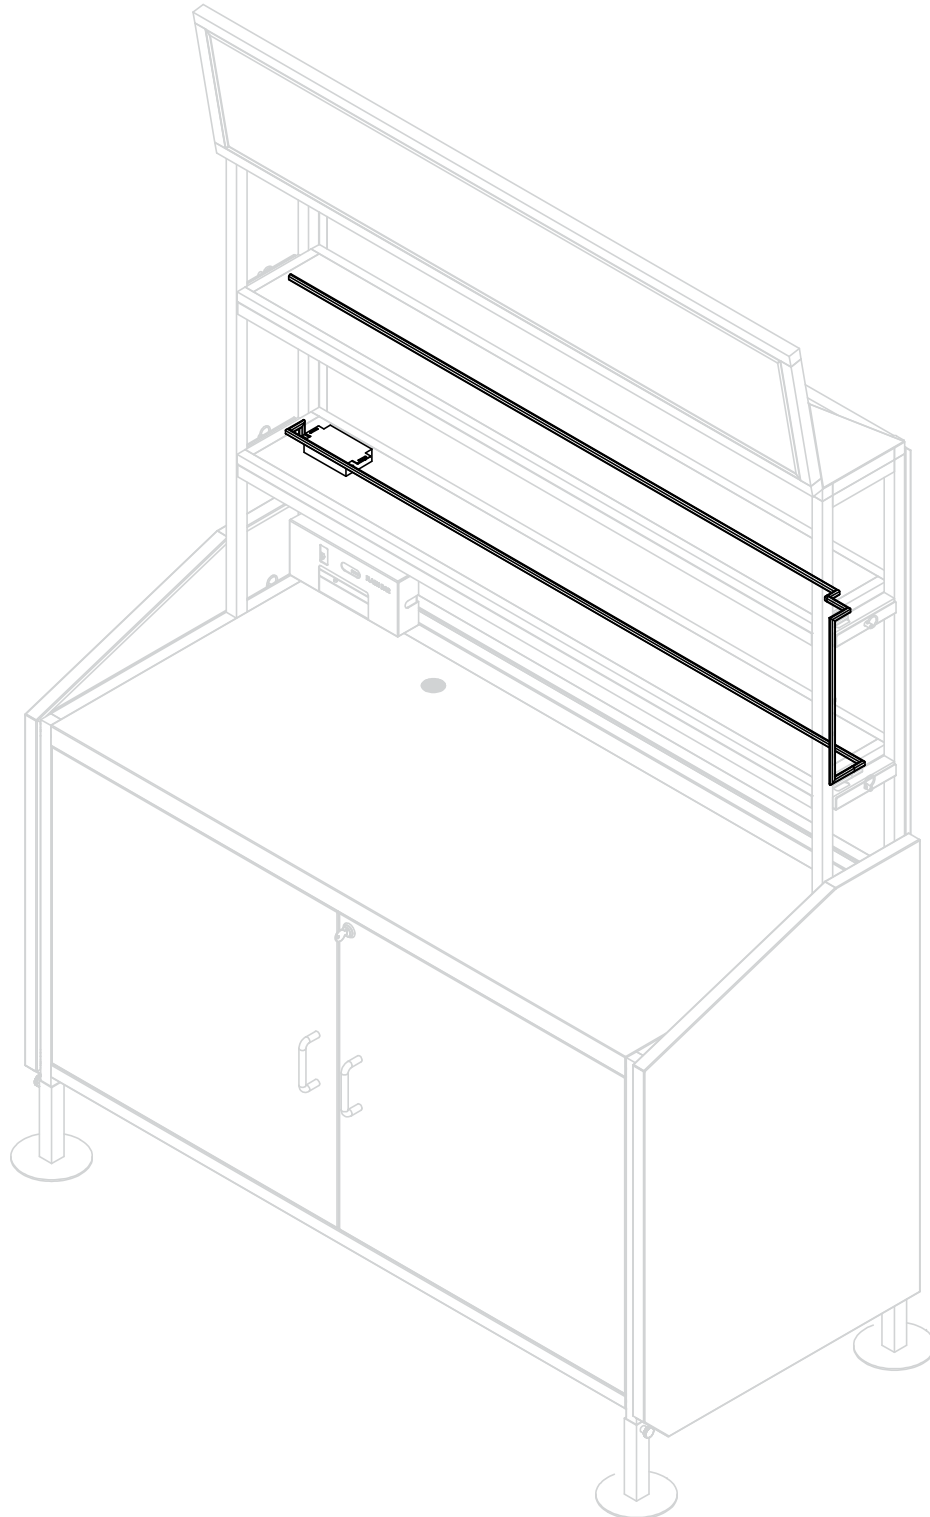

Additional Storage Shelf

STEP 1: To install an additional shelf between the bottom lower shelves just repeat **Step 8** on **Page 7**.

Acrylic pieces

QTY: 2

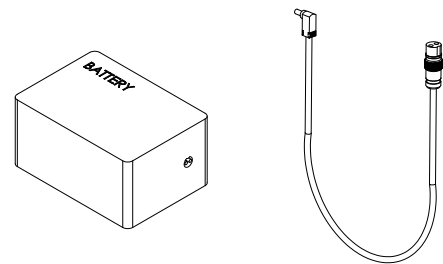

Power Adapter

QTY: 1

Battery

QTY: 1

Note: Parts are not to scale.

STEP 1: To install the two upper shelves with integrated LED lights align the shelves with the channels of the side-frames, then lock them in place by installing a locking pin on the sides, as shown below:

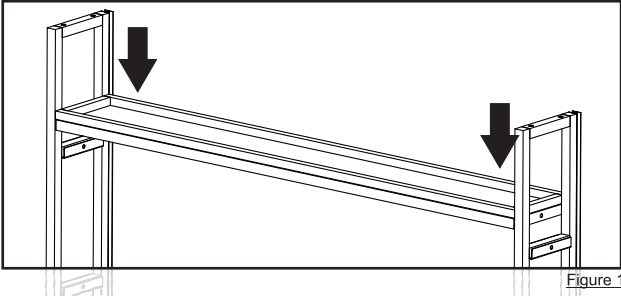

Figure 1

Note: The shelf with the attached LED controller goes on bottom. The controller should be on the left side. The top shelf should have just a single cable coming out of it on the right side.

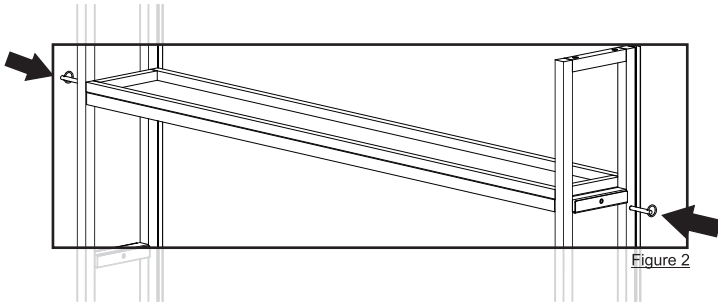

Figure 2

STEP 2: Run the cable that comes from the top shelf through the side-frame horizontal tube.

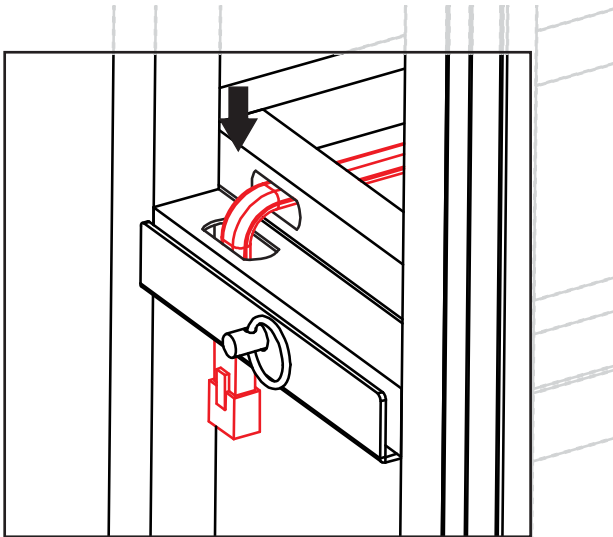

Figure 3

STEP 3: Plug the cables that come from the top and bottom shelves to one another, as shown below:

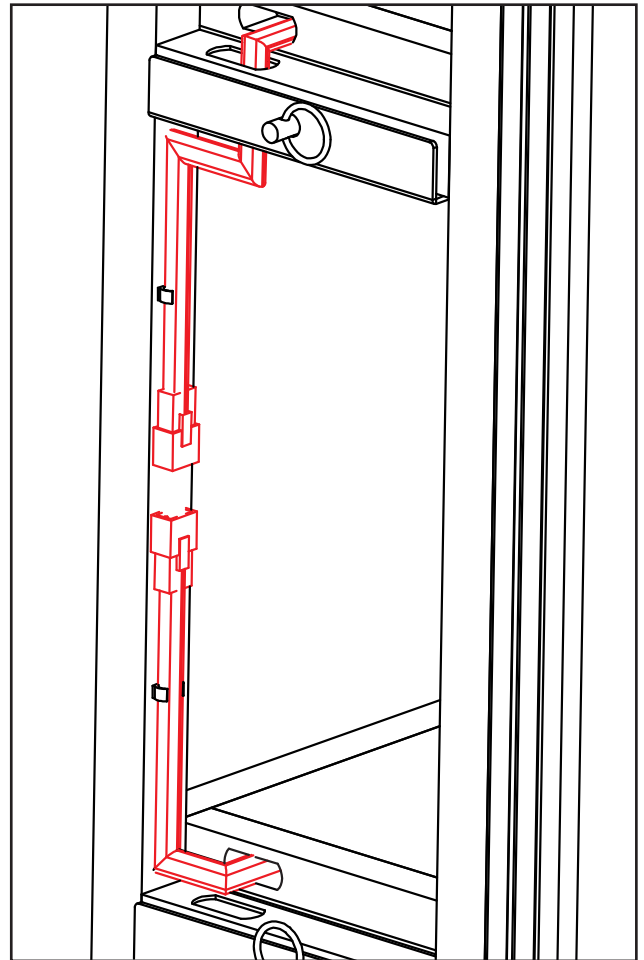

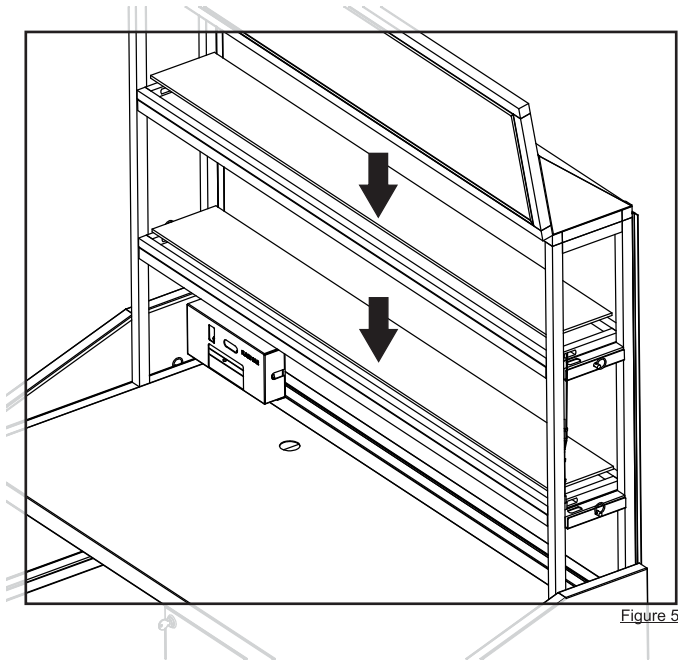

Figure 4

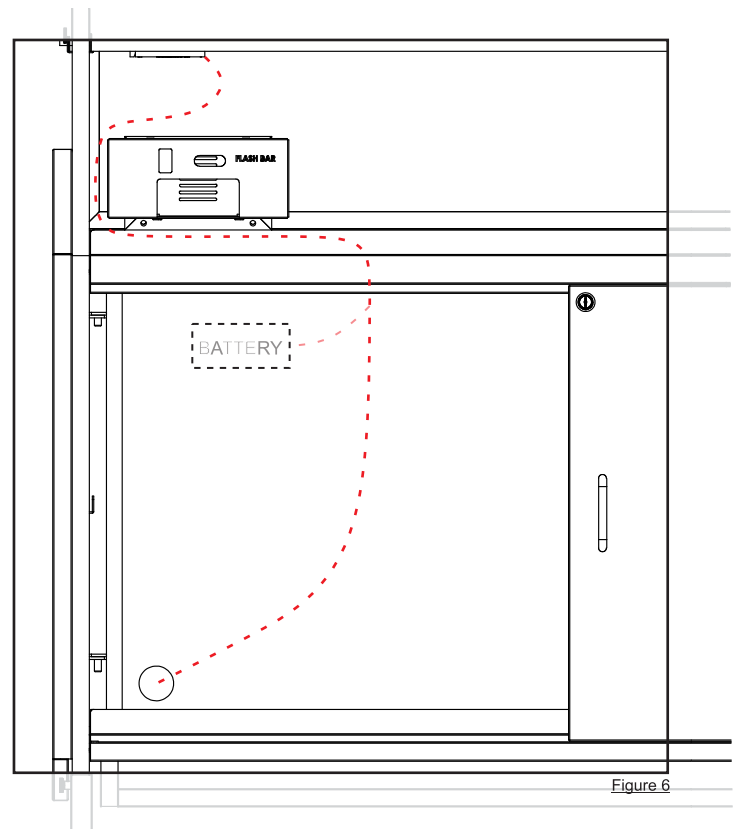

Note: For cable management use provided clips, as in the image above.

STEP 4: Place the acrylic panels on top of the shelves.

STEP 5: To power the LED controller you may:

- Plug the power adapter and run the cable through the top storage shelf and the back panel, as shown.
- Plug the battery using the provided cable and running it through the top storage shelf. Rest the battery on the two “L” brackets fixed to the back panel.

Note: Do not run the LED system with the battery and direct electrical plugin simultaneously.
